“easement” means the easement of the right of support and right of way described in this Schedule.

“grantor” means the Crown.

“grantee” means the registered proprietor(s) of the dominant land.

“MSE” means a mechanically stabilised embankment to be constructed as part of the proposed Hutt Road Interchange on the land adjoining Section 2 on SO 341776.

“servient land” means Section 2 on SO 341776.

“structures” means that part of the external wall, concrete column bases and foundation beams and footings, and all associated fittings, fixtures and attachments constructed on, under, through and over the servient land.

2. *Grant of Easement*

- The grantor GRANTS to the grantee as an easement imposed upon the servient land and appurtenant to the dominant land, pursuant to section 48 of the Public Works Act 1981, the right to:

(a) use the structures as a support for the building on the dominant land;

(b) subject to clause 2.2, from time to time and at all reasonable times enter upon the servient land with or without engineers, contractors and workers for the purpose of inspecting the structures and the wall of the building they support and, subject to 5.2, to do all things that may appear reasonably necessary for their maintenance, support and repair.

- The grantor may temporarily exclude entry by the grantee, pursuant to clause 2.1 (b), if it believes on reasonable grounds that it is necessary to do so to ensure safety.

- The easement shall be forever appurtenant to the dominant land, subject however to termination as set out in clause 2.4 below. For the avoidance of doubt, the term shall not be capable of revocation on the giving of three months’ notice as provided for in section 48 of the Public Works Act 1981.

- 2.4 (a) The easement shall only exist for so long as the present building remains on the dominant land. Should the present building be demolished, the grantee shall, at the grantee's cost as part of such works, remove all parts of the structures from the servient land. On demolition of the building, the easement shall extinguish absolutely and the parties shall be released from any further liability arising pursuant to the easement with effect from such date but without prejudice to either party's rights arising before that date.
- (b) If at any time an application made for the cancellation of the unit title shown on DP 68792 is lodged with the District Land Registrar under the provisions of the Unit Titles Act 1972, the easement shall determine when all other conditions for cancellation are complied with to the satisfaction of the District Land Registrar.
- (c) In the event that the easement is extinguished, the District Land Registrar may make an entry in the Register accordingly in respect of the title to the dominant land.
- (d) In the event that the easement determines, pursuant to clause 2 (b), prior to demolition of the building, the grantor shall, at the request of the grantee, grant a new easement on like terms as recorded in this easement (amended as may be required in the circumstances) subject to the grantor having first complied with any statutory or regulatory requirements.

3. *Covenants*

- 3.1 The grantor and the grantee covenant as follows:
- (a) The grantee shall not do or permit to be done anything by which the MSE (or any other replacement or additional roading structure of the grantor) shall be in any way damaged or rendered unstable or unsafe.
- (b) The grantee will regularly inspect the structures and the wall of the building they support adjacent to the servient land to ensure that the same continue to comply with all relevant statutes, regulations or consents, and that no damage to the structures and the wall of the building they support has occurred.
- (c) If the structures and/or the wall of the building do not comply with all relevant statutes, regulations or consents, the grantee will put the same into the condition required to make them comply with the relevant statutes, regulations or consents immediately upon the non-compliance being made known to the grantee.
- (d) If the grantee defaults in any of its obligations to maintain or repair under clause 3.1 (c), the grantor may arrange for such repair or maintenance at the cost of the grantee and the grantee shall immediately reimburse the grantor for such expense, but without prejudice to the grantor's other rights and remedies under the easement.
- (e) The grantor shall, at all times during this easement, ensure that an adequate security fence and gate is installed along the Hutt Road boundary between the building and the MSE and keep the same in good repair. The grantor shall make available to the grantee keys to the security gate to allow the grantee reasonable access pursuant to clause 2.1 (b).
- (f) Nothing in this easement shall prevent the grantor from making excavations of the servient land or

the adjoining road for the purpose of laying foundations for any roading structure or other building, and the grantor may in future do all such things on the servient land or the adjoining road as the grantor shall see fit at its sole discretion (which actions might but for this proviso be a derogation from the grantor's own grant) provided that in so doing the grantor shall provide sufficient artificial means of support to the building on the dominant land both during the progress of and after the completion of any such work on the servient land or the adjoining road.

4. *Agreement to Subsist*

- 4.1 No power is implied in respect of the easement or any right or obligation under it for the grantor to determine the easement or any right or obligation set out in this easement, it being the intention that the easement and all rights and obligations shall subsist for the term (subject to early termination under clause 2.4) unless surrendered by the grantee or modified or terminated by the mutual written agreement of the grantor and the grantee.

5. *Statutory Rights Implied*

- 5.1 The rights and powers implied by the Fourth Schedule to the Land Transfer Regulations 2002 shall be deemed incorporated and form part of the easement, but where any conflict arises the terms of the easement shall prevail.
- 5.2 Nothing in the easement shall override any statutory and regulatory provisions relating to the servient land. The grantee shall, in taking entry under the easement and in completing any works on the servient land, comply with any such statutory requirements, including without limitation obtaining the consent of the grantor prior to completing any works that affect the surface of the servient land or that may produce subsidence affecting the servient land.

6. *Disputes*

- 6.1 The parties acknowledge their desire that all questions or differences whatsoever which arise between the parties concerning the easement or its subject matter or arising out of or in relation thereto and whether as to interpretation or otherwise be resolved amicably by bona fide discussion between them.
- 6.2 If any question or difference (the "Dispute") is not resolved by written agreement between the parties within 20 business days of one party giving notice to the other of a proposal for resolution of the Dispute, the Dispute shall be referred to mediation in accordance with clause 6.3.
- 6.3 Each party agrees not to commence any legal proceedings relating to the Dispute unless it has complied with the following:
- (a) On notice (the "Notice") by one party to the other party of the failure of formal discussions between the parties in respect of the Dispute, and its decision to apply for mediation, the parties shall endeavour in good faith to resolve the Dispute expeditiously using informal dispute resolution techniques such as mediation, expert evaluation or determination or similar techniques agreed by them.
- (b) If the parties do not agree within 10 business days of receipt of the Notice (or such further period as agreed in writing by them) as to:
- (i) the dispute resolution technique and procedures to be adopted;
 - (ii) the timetable for all steps in those procedures;

- (iii) the selection and compensation of the independent person required for such techniques,

the parties shall mediate the Dispute in accordance with the Mediation Rules of the New Zealand Chapter of Lawyers Engaged in Alternative Dispute Resolution (“LEADR”) and the executive chair of LEADR or the executive chair’s nominee will select the mediator and determine the mediator’s remuneration.

- (c) Where the Dispute is not resolved by mediation in accordance with this clause 6.3, then either party may take such other action, as it considers appropriate, including commencing legal proceedings;
- (d) Pending resolution of the Dispute, the parties shall continue to perform their respective obligations pursuant to the provisions of the easement.

7. Notices

- 7.1 Without prejudice to any other procedures for the giving of notice at law, all notices and other communications required or permitted under the easement shall be in writing and shall be delivered personally or sent by prepaid post or by facsimile transmission to such address notified for this purpose.
- 7.2 A notice or other communication delivered by hand shall be deemed to have been received at the time of delivery. However, if the delivery is not made on a business day or is made after 5.00 p.m. on a business day, then the notice or other communication will be deemed to have been received on the next business day.
- 7.3 A notice or other communication delivered by prepaid post shall be deemed to have been received on the third business day after posting.
- 7.4 A notice or other communication sent by facsimile shall be deemed to have been received on the date of transmission. However, if the date of transmission is not a business day or the transmission is sent after 5.00 p.m. on a business day, then the notice or other communication will be deemed to have been received on the next business day after the date of transmission.

8. Governing Law

- 8.1 The easement is governed by, and shall be construed in accordance with, the laws of New Zealand. The parties to the easement agree to:
- (a) submit to exclusive jurisdiction of the Courts of New Zealand;
- (b) waive any immunity they may have to the New Zealand Courts jurisdiction; and
- (c) consent to the enforcement, or execution, in any court of competent jurisdiction in any country, of any order or judgment which may be made by the Courts of New Zealand.

9. Severability

- 9.1 If any part of the easement is held by any Court or administrative body of competent jurisdiction to be illegal, void or unenforceable, such determination shall not impair the enforceability of the remaining parts of the easement.

10. No Partnership

- 10.1 Nothing in the easement shall evidence or be deemed to constitute a partnership between the parties.

11. No Waiver

- 11.1 A waiver of any provision of the easement shall not be effective unless given in writing, and then it shall be effective only to the extent it is expressly stated to be given.

- 11.2 A failure, delay or indulgence by any party in exercising any power or right shall not operate as a waiver of that power or right. A single exercise of any power or right shall not preclude further exercises of that power or right or excuse from any other power or right.

12. Force Majeure

- 12.1 Notwithstanding any other provision of the easement, if either party shall fail to comply with or observe any provision of the easement and such failure is caused by an event which is outside the reasonable control of that party, that failure shall not itself give rise to any cause of action or liability based on breach of that provision of the easement.

Given under the hand of Her Excellency the Governor-General of New Zealand, and issued under the Seal of New Zealand this 5th day of September 2005.

STANDARD 4.2.4A

PRIMARY PRODUCTION AND PROCESSING STANDARD FOR
SPECIFIC CHEESES

(Australia only)

Purpose and commentary

This Standard sets out primary production and processing requirements for Gruyere, Sbrinz, Emmental and Roquefort cheese.

Table of Provisions

1 Requirements for certain cheese and cheese products

Clauses**1 Requirements for certain cheese and cheese products**

Cheese and cheese products specified in Column 1 of the Table to this clause may be manufactured from milk and milk products that have been produced and processed using a method that –

- (a) ensures that the cheese produced achieves an equivalent level of safety protection as cheese prepared from milk or milk products that have been heat treated in accordance with paragraph 2(1)(a) of Standard 1.6.2; and
- (b) is set out in the legislation or documentation listed in Column 2 of the Table to this clause; and
- (c) complies with the conditions, if any, specified in Column 3 of the Table to this clause.

Table to clause 1

Column 1	Column 2	Column 3
Cheese and cheese products	Legislation or documentation	Conditions
Gruyere, Sbrinz or Emmental cheese	The <i>Ordinance on Quality Assurance in the Dairy Industry</i> of the Swiss Federal Council of 18 October 1995	
Roquefort	<p>The <i>Ministerial Order of 30 December 1993 on requirements relating to the premises, equipment and operation of milk collection or standardization centres and of establishments involved in the treatment or processing of milk or milk-based products</i></p> <p>The <i>Ministerial Order of 18 March 1994 on the hygiene of milk products and collection</i></p> <p>The <i>Ministerial Order of 30 March 1994 on the microbiological criteria that drinking milk and milk-based products must satisfy in order to be placed on the market</i></p> <p>The <i>Ministerial Order of 28 June 1994 on the identification and sanitary approval of establishments placing on the market animal foodstuffs or foodstuffs of animal origin and on health marking</i></p> <p>The <i>Ministerial Order of 2 March 1995 on the approval of milk collection, standardization or treatment centres and of establishments involved in the processing of milk and milk-based products</i></p>	<p>(1) The following matters must be monitored and recorded during cheese production:</p> <ol style="list-style-type: none"> (a) pH during the acidification process; and (b) salt concentration; and (c) moisture content. <p>(2) Unpasteurised milk for cheese production must be tested and demonstrated to have no detected levels of <i>Listeria monocytogenes</i> in 25 ml of milk per tanker.</p> <p>(3) The cheese must be stored at an appropriate temperature for a period of no less than 90 days from the date of manufacture.</p>

Editorial note:

Legislation or documentation will only be listed in the Table to clause 1 if it incorporates or provides for methods which provide a level of safety protection equivalent to that provided by a process that includes treatment of the milk or milk product in accordance with paragraph 3(2)(a) of Standard 4.2.4, and has adequate hazard identification and process controls.

AQIS quarantine requirements for the importation of dairy products from approved countries define the date of manufacture for cheese as the date the curd is set.

Cheese and cheese products must also be manufactured using measures to ensure compliance with requirements in Standard 1.6.1 – Microbiological Limits for Food, Chapter 3 - Food Safety Standards to the extent that these requirements are not specifically covered in clause 3 of this Standard, and any applicable State and Territory requirements in relation to cheese production, including any specific requirements in relation to the safety of raw milk and raw milk cheese production.

In relation to condition (1)(a) for Roquefort, the monitoring of pH should ensure that rapid acidification occurs, that is, the pH should fall to below pH 5.0 within the first 6 to 8 hours following addition of the starter culture.

Clause 4 of Standard 1.2.4 requires ingredients to be declared using the common name of the ingredient, or a name that describes the true nature of the ingredient, or if applicable a generic name. This requirement means that in relation to cheese made from unpasteurised milk, the ingredient declaration should include a statement that the milk is unpasteurised, and in the case of cheese made other than from cow's milk, should also include the common name of the species from which the milk is sourced.

Chairperson's Report for the Year Ended 31 March 2005

It is with pleasure that I report to our community on the financial accounts and the operations of the Community Trust of Mid & South Canterbury Incorporated for the year ended 31 March 2005.

Financial Considerations

I am pleased to report that, while not the exceptional performance of last year, a solid return on investments to the year ending 31 March 2005 of 8.4% was achieved.

The trust sets itself a long-term objective return of 7% p.a. and this year's result slightly outperformed that figure.

This result was accomplished by:

- Net income from investments of \$1,050,667 before recognition of the net expenses in running Community House; and
- Net increase in managed funds of \$1,464,646.

The Community Trust of Mid & South Canterbury Incorporated uses a multi manager system to manage their asset classes and contract MCA NZ Limited of Auckland as consultant.

Donations

Donations were made of some \$566,426 to a wide number of organisations. Of special note was the donation to the Timaru Mental Health Support Trust that was able to extend its residential care facilities. The trust also made a substantial grant to Search and Rescue for the benefit of the entire Mid and South Canterbury region. It was evident to us that this region has a large hinterland of alpine playground in a unique geographical setting, where many local and visiting recreationalists hike and camp. Inevitably there are situations of mishap and this small group of volunteers come to the rescue. Our donation was specifically directed at providing greater safety to those who conduct the rescue in what can be life-endangering situations.

Mission

“To work with community groups to achieve a region of healthy, vibrant, and caring communities”

The Community Trust of Mid & South Canterbury Incorporated is only a very small part of the fabric that makes up the civil society of our region. This trust could not achieve any part of its mission without the dedication and enthusiasm of the people of this community. Your trust has looked hard at the needs, as outlined in the social research paper (*Mid & South Canterbury: A Profile*), to guide our donation principles and priorities.

The trust works within the confines of its trust deed to enhance the health and vibrancy of the community by making grants in the following categories:

- Education
- Community health and welfare
- Recreational and sport
- Cultural and heritage
- Youth activities
- The environment

In addition, the trustees believe that the greatest impact in attaining this mission is achieved by enhancing the occurrence of civil association. This means, in plain language, the more people who volunteer to be involved in community-based activities, clubs and groups, the more healthy and vibrant that community becomes. The trust believes that its purpose is not an end in itself, but that it can create synergies with other organisations to build what is known in the sector as social capital.

In order to achieve this purpose, the trust has adopted a general “funding services” policy in which it attempts to help all not-for-profit applicant groups by making a grant within the donation policy criteria. For those who do not qualify or need extra funding above the capacity of this trust, our staff redirects them to other possible sources of fundraising. This service has led to a collaborative role, whereby the trust co-ordinates several funding bodies to achieve a project result.

In addition, the trust works with other grant makers to try to co-ordinate the grant-making environment. I would like to make special note of the work and assistance that Jennifer Williamson, of the Department of Internal Affairs, has given to this collaborative approach. Jennifer organises an annual funder’s forum within Mid and South Canterbury, which complements our involvement with Philanthropy New Zealand and results in a better informed and skilled grant-making sector in our region.

Trustees

In June 2004, the Minister of Finance, Dr Michael Cullen, supported our recommendation and appointed Peter Dalziel as a new trustee. This appointment resulted from a vacancy created by the departure of Trevor MacIntyre in 2003. We are delighted to have Peter Dalziel on board and he has proven to be a very worthy representative for the Temuka area. Peter attended the combined community trust conference, along with our executive manager and myself, in Auckland earlier this year.

All trustees have worked hard to carry out their duties, which are quite arduous in the modern world. Knowledge of financial investment, as well as in-depth awareness of the needs of the community, is essential in enabling a fair and equitable distribution of large sums of money back into the community voluntary sector. I wish to pay special thanks to Carole Brand, my deputy chairperson, whose skill and time commitment has been a real asset to this organisation. As an entity, we have limited control of our succession plan. However, it is gratifying that we have such an excellent mix of skills and a good geographical representation of trustees. From a personal perspective, this board is a pleasure to chair.

Staff

John Wilson has proven a lively and enthusiastic executive manager for this trust. John has lifted the public profile of the trust and presents a welcoming and user-friendly interface between the board and the public. John is developing new and innovative ideas to be more effective and accessible to community needs.

Under John’s guidance, Strategic Planning, Trustee Performance Reviews, and Statement of Investment Policy and Objectives (SIPO) reviews are regular features of our business calendar. Given all this scrutiny, the executive manager’s review is also a regular event.

Sally Marsh very ably assisted John in the administration workload as administration officer. Sally has been with the trust for seven years and is a valued member of the team. Her loyalty and skills in carrying out this role are acknowledged.

External Relations

Through this trust’s involvement in the combined community trust group, we have achieved some significant successes. During the past year, the combined group was a participant in a regulation review of the Department of Internal Affairs’ charges imposed on the community trusts. This process involved an independent consultant completing this process under the instruction of the Minister of Finance.

Our trust played a significant part in producing evidence of positive social externalities within the whole community. The resulting policy change relieves all 12 community trusts of their existing cost burden to the Department of Internal Affairs. This, in effect, leaves more money to be distributed back to the community and is recognition from government of the substantial contribution of social capital made by the combined community trusts annually. To the year ended 31 March 2004, the total distributed funds throughout the communities of New Zealand by the combined community trusts were in excess of \$75,000,000. It is anticipated that the figure for the year ended 31 March 2005, once known, will prove to be much higher.

Also, successful lobbying has seen the requirement of Statistics New Zealand to gather data on all not-for-profit organisations as a complement to New Zealand's official statistics. This will eventually lead to a global comparative analysis of the financial input of the voluntary sector in New Zealand against the voluntary sector in other countries. It is recognition of the value and impact that the voluntary sector has in this country, and will provide a valuable measure as to how well we compare on an international basis in the way we interact with, and show compassion for, our fellow human beings, rather than just the measure of profit in government's current statistical analysis.

Appointment of Auditor

The trust has again appointed Martin Wakefield, Chartered Accountants of Timaru, to act as auditors to the trust.

PETER F. MCILRAITH, Chairperson.

Notes to the Consolidated Financial Statements for the Year Ended 31 March 2005**1. Statement of Accounting Policies****Reporting Entity**

The Community Trust of Mid & South Canterbury Incorporated is a charitable trust incorporated under the Trustee Banks Restructuring Act 1988. The financial statements have been prepared in accordance with the Financial Reporting Act 1993 and generally accepted accounting policies.

General Accounting Policies

The general accounting policies adopted in the preparation of these financial statements are:

- The measurement base adopted is that of historical cost, except for the revaluation of investments. Reliance is placed on the fact that the trust is a going concern.
- The matching of revenues earned and expenses incurred using accrual accounting.

Particular Accounting Policies

The following are the particular accounting policies which have a material effect on the measurement of results and financial position:

(a) *Dividend Income*

Dividend income is included in the consolidated statement of financial performance when it is received.

(b) *Donations*

Donations, special projects and community loans are accounted for when they are approved for payment.

(c) *Investments*

Investments held as managed funds are shown at market value. Net income including unrealised gains or losses from holding such investments are recorded in the consolidated statement of financial performance.

(d) *Trust Capital*

Trust capital is made up of:

- Capital fund – which records initial capital fund (being the realised value of trust bank shares).
- Inflation reserve – it is intended to increase the inflation reserve each year by applying the consumer price index to the sum of the initial capital fund and opening inflation reserve. This amount to be allocated from trust profit on an annual basis.
- Uncommitted surplus represents the balance of any profit remaining.

(e) *Basis of Consolidation*

The Community Trust of Mid & South Canterbury Incorporated and its subsidiary the Trust Bank South Canterbury Community Trust Charities Limited have been consolidated using the purchase method of consolidation.

(f) *Depreciation*

The assets of the trust are stated at cost price less depreciation based on rates as allowed by the Inland Revenue Department.

Changes in Accounting Policies

- While the trust has not changed its policy with respect to the capital and reserves of the trust, unfortunately prior year financial results depleted the capital and reserves:
 - Capital fund – The initial capital fund (being the realised value of trust bank shares) was \$32,087,148.
 - Inflation reserve – It is intended to increase the inflation reserve each year by applying the consumer price index to the sum of the initial capital fund and opening inflation reserve. The nominal inflation reserve required under this policy at 31 March 2005 is \$5,860,728 and it is the trustees' intention to restore the inflation reserve accordingly.
- The trust registered for G.S.T. during the income year. The trust previously recognised income and expenditure on a G.S.T. inclusive basis. In line with generally accepted accounting practice, the trust now prepares its financial statements on a G.S.T. exclusive basis.
- The trust purchased a number of fixed assets during the year. These assets are depreciated at rates as determined by the Inland Revenue Department.
- There have been no other changes in accounting policy.
