Explanatory Note

This Note is not part of the bylaw, but is intended to indicate its general effect. This bylaw is the validation required by section 10 of the Land Transport Rule: Setting of Speed Limits 2003. It validates the speed limits for vehicles on State highways saved under section 4 of the Transport Amendment Act 1997, except the 100km/h speed limit which generally applies on all roads within a rural area, and the 50km/h speed limit which generally applies on all roads within a designated urban traffic area (local authorities have generally excluded State highways from designated urban traffic areas so the speed limit for them is 100km/h unless otherwise specified in this bylaw.)

From time to time, Transit New Zealand will review the speed limits set in this bylaw in accordance with the Land Transport Rule: Setting of Speed Limits 2003 and make new or amending bylaws as appropriate.
