 - (i) Appendix G of AS 1940: 2004; The Storage and Handling of Flammable and Combustible Liquids; or
 - (ii) a code of practice approved by the Authority under section 78 of the Act that specifies requirements equivalent to the requirements specified in subparagraph (i); and
- (d) the containers are constructed of stainless steel, concrete or such other material specified under a code of practice approved by the Authority under section 78 of the Act.

New regulation 56A

The regulations apply to each hazardous substance described in Schedule 1 with variation code 1 as if the following regulation were inserted immediately after regulation 56:

56A Exception to approved handler requirement for transportation of packaged classes 2, 3 and 4 substances

- (1) Regulation 56 is deemed to be complied with if—
 - (a) in the case of a hazardous substance being transported on land—
 - (i) in the case of a hazardous substance being transported by rail, the person who drives the rail vehicle that is transporting the substance is fully trained in accordance with an approved safety system under section 6D of the Transport Services

Licensing Act 1989 or a safety system which is referred to in an approved safety case under the Railways Act 2005; and

- (ii) in every other case, the person who drives, loads, and unloads the vehicle that is transporting the substance—
 - (A) for hire or reward, or in quantities which exceed those set out in Schedule 1 of the Land Transport Rule 45001/1: Dangerous Goods 2005, has a current dangerous goods endorsement on his or her driver licence; or
 - (B) in every other case, the Land Transport Rule 45001/1: Dangerous Goods 2005 is complied with; or
 - (b) in the case of a hazardous substance being transported by sea, one of the following is complied with:
 - (i) Maritime Rules: Part 24A – Carriage of Cargoes – Dangerous Goods (MR024A); or
 - (ii) International Maritime Dangerous Goods Code; or
 - (c) in the case of a hazardous substance being transported by air, Part 92 of the Civil Aviation Rules is complied with.
- (2) Subclause (1)(a)—
- (a) does not apply to a tank wagon or a transportable container to which the Hazardous Substances (Tank Wagons and Transportable Containers) Regulations 2004 applies; but
 - (b) despite paragraph (a), does apply to an intermediate bulk container that complies with chapter 6.5 of the UN Model Regulations.
- (3) Subclause (1)(c)—
- (a) applies to pilots, aircrew, and airline ground personnel loading and handling a hazardous substance within an aerodrome; but
 - (b) does not apply to the storage and handling of a hazardous substance in any place that is not within an aerodrome or within an aerodrome by non-airline ground personnel.

Regulation 72

Subclause (1) of this regulation does not apply to class 4.1.1 or class 4.3 hazardous substances and the corresponding references to class 4.1.1 and class 4.3 substances in Table 6 of Schedule 3 to the regulations are repealed.

Regulation 81

This regulation applies to class 2 and class 3.1 hazardous substances as if, at the end of paragraph (g), the expression “.” were omitted and the following substituted:

“; and”

and as if, after paragraph (g), the following were inserted:

- (h) the requirements of Schedule 10 (controls relating to the adverse effects of unintended ignition of class 2 and class 3.1 hazardous substances) to the Hazardous Substances (Dangerous Goods and Scheduled Toxic Substances) Transfer Notice 2004 are complied with.

New regulation 89A

The regulations apply to each hazardous substance described in Table 4 of Schedule 1 with variation code 2 as if the following regulation were inserted immediately after regulation 89:

89A Exception to approved handler requirement for transportation of packaged classes 5.1.1 and 5.1.2 substances

- (1) Regulation 89 is deemed to be complied with if—
 - (a) in the case of a hazardous substance being transported on land—
 - (i) in the case of a hazardous substance being transported by rail, the person who drives the rail vehicle that is transporting the substance is fully trained in accordance with an approved safety system under section 6D of the Transport Services Licensing Act 1989 or a safety system which is referred to in an approved safety case under the Railways Act 2005; and
 - (ii) in every other case, the person who drives, loads, and unloads the vehicle that is transporting the substance—
