An overview of reviewing the levies

Each year, ACC reviews the levies it charges.

From September to early October	The ACC Board invites the public to make submissions on levy rate proposals and options.
October	The ACC Board considers the submissions.
November–December	The ACC Board makes recommendations to Government, via the Minister for ACC, about any changes to the levy rates for the following levy year.
1 April	The regulations and new levy rates come into effect (except the motor vehicle levy).
1 July	The regulations and new motor vehicle levy rate come into effect.

What's in it for you?

Compensation for injuries resulting from accidents was introduced in 1974 so New Zealanders wouldn't have to go to court to seek compensation if they were injured.

New Zealand is the only country in the world with an accident compensation scheme that covers every one of its citizens (and visitors to the country) for personal injuries, 24 hours a day, seven days a week.

When an injury happens, ACC will help with:

- medical costs
- loss of earnings compensation – of up to 80% of your earnings
- rehabilitation costs
- support needed for you or your employee to return to work or independence as soon as possible.

This is your chance to have your say on what you pay.

Why do levies change?

ACC meets the ongoing cost of claims from the levies it collects each year and the interest it earns by investing any unspent levies or reserves.

There are a number of factors that affect levy rates. These include the forecast trends in injury and death rates, the duration and cost of claimants' rehabilitation or compensation, and economic factors such as inflation and interest rates. Rising interest rates increase the future earnings expected from ACC's investments and decrease ACC's liability for past injuries and, as a result, reduce the levy rates. The opposite is true when interest rates reduce.

Proposals for each group of levy payers

Employers

Employer levies are based on their employee payroll. Employers pay:

- a levy for cover on work-related injuries to their employees in 2007/2008; and
- a levy to pay for injury claims prior to 1999.

ACC proposes:

- maintaining the combined levy rate for employers at an average of \$1.21 per \$100.00 of payroll by:
 - decreasing the levy rate on cover for 2007/2008 work claims from \$0.86 to \$0.67
 - increasing the levy rate for injury claims prior to 1999 from \$0.35 to \$0.54
- moving three individual classifications to different risk groups (or pricing pools)
- maintaining the number of risk groups for cover on 2007/2008 work injuries to 127, and maintaining the existing 41 risk groups for claims prior to 1999.

Self-employed

Self-employed levies are based on their earnings.

Self-employed pay:

- a levy for cover on their work-related injuries in 2007/2008;
- a levy to pay injury claims prior to 1999; and
- a levy on their cover for non-work injuries.

ACC proposes:

- decreasing the combined levy rate for self-employed to an average of \$3.44 per \$100.00 of earnings by:
 - decreasing the levy rate on cover for 2007/2008 work claims from \$2.03 to \$1.74
 - increasing the levy rate for injury claims prior to 1999 from \$0.35 to \$0.54
 - maintaining the levy rate on cover for non-work claims at \$1.16
- moving three individual classifications to different risk groups (or pricing pools)
- maintaining the number of risk groups for cover on 2007/2008 work injuries to 127, and maintaining the existing 41 risk groups for claims prior to 1999.

Earners

Earner levies are based on the earnings of employees and self-employed people, and pay for cover on their non-work injuries.

ACC proposes:

- maintaining the levy rate on cover for non-work claims from \$1.16 per \$100.00 of earnings.

Motorists

Motorists pay for all injuries involving motor vehicles on public roads, through a combination of:

- a levy paid by motor vehicle owners through their annual vehicle licensing fee (the levy is based on the type of vehicle)
- a levy on petrol sales paid by vehicle users.

ACC proposes:

- maintaining the petrol levy for 2007/2008 at 5.78 cents per litre and increasing the average licensing fee per petrol vehicle to \$130.84, resulting in a combined average levy rate of \$204.78 per petrol vehicle
- maintaining the existing nine vehicle classifications
- increasing the ACC component of the annual vehicle licensing fee for each vehicle type.

Land Transport New Zealand

Land Transport Act 1998

Notification of Ordinary Rule

Pursuant to section 161 (3) of the Land Transport Act 1998, notification is given of the making of *Land Transport Rule: Vehicle Exhaust Emissions 2006*.

This Rule revises and replaces *Land Transport Rule: Vehicle Exhaust Emissions 2003**, which specifies vehicle exhaust emissions manufacturing standards to which vehicles must be built before being certified for use in New Zealand.

Land Transport Rule: Vehicle Exhaust Emissions 2006 introduces a visible smoke check at vehicle inspection.

The aim of the Rule is to check that vehicles are not gross polluters.

It builds on the existing requirements in the *Land Transport (Road User) Rule 2004†* which allows the Police to enforce on-road requirements aimed at controlling vehicle emissions and improving air quality.

The new Rule defers, by one year, the coming into force date for the application of the Euro 4 emissions standard to both new and existing models of diesel-powered heavy vehicles.

The change takes into account that the European Union only recently officially adopted this emissions standard.

Land Transport Rule: Vehicle Exhaust Emissions 2006 comes into force on 27 October 2006.

It is available for inspection free of charge at the National Office of Land Transport New Zealand, 7 Waterloo Quay, Wellington.

A bound copy will be available in September 2006 for purchase from selected bookshops that sell legislation or from Wickliffe Limited, freephone 0800 226 440.

Wickliffe will make a loose-leaf version of the new Rule available to Rule subscribers.
