Statement of Significant Accounting Policies for the Year Ended 31 March 2006

A. Basis of Preparation

The Community Trust of Southland was formed under the Trustee Banks Restructuring Act 1988 and is incorporated under the Charitable Trusts Act 1957. The financial statements presented are those for The Community Trust of Southland (“the trust”) and Southland Community Trust Charities Limited, making up the parent. The group consists of The Community Trust of Southland (“the trust”), its wholly owned subsidiary company Southland Community Trust Charities Limited and Invest South Limited Group.

The financial statements comply with the Financial Reporting Act 1993, the Community Trusts Act 1999 and the Companies Act 1993. They comprise statements of the following: Significant accounting policies, financial performance, movements in trust funds, financial position, cash flows, as well as notes to these statements.

The financial statements are prepared on the basis of historical cost except that investment assets are stated at valuation, as is the trust’s property at 62 Don Street, Invercargill.

B. Consolidation Method

The financial statements of the trust’s wholly owned company Southland Community Trust Charities Limited are included in the financial statements of the parent. The financial statements of the trust’s wholly owned company, Invest South Limited Group, are included in the financial statements of the group using the purchase method of consolidation.

C. Associates

Associates are entities in which the group has significant influence, but not control over the operating and financial policies. The financial statements include the group’s share of the net surplus of associates since acquisition on an equity accounted basis.

D. Goodwill Arising on Acquisition of Associates

Goodwill arising on the acquisition of an associate represents the excess of the purchase consideration over the fair value of the identifiable assets acquired. Goodwill is stated at cost and amortised to the statement of financial performance on a straight line basis over the period during which benefits are expected to be derived – a period not exceeding 20 years.

E. Trust Capital

Following the sale of the trust’s shares in Trust Bank New Zealand Limited in April 1996 for \$158,460,000, the trustees agreed that the value of the trust at that time should be maintained for the benefit of current and future generations living in the region. For this purpose, the trustees agreed that \$158,460,000 would be considered as the “trust capital” value of the parent and that this value would be maintained. Trustees further agreed that over the long term, the net assets of the parent would not be allowed to reduce to a level below the inflation-adjusted real value of this trust capital.

F. Capital Maintenance Reserve

The capital maintenance reserve represents the additional amount necessary to preserve the real value of the trust capital allowing for inflation as measured by the Consumers Price Index (all groups) and payments of grants out of capital.

G. Grants Maintenance Reserve

While the trustees have adopted a long-term investment strategy, they accept that annual returns from investments are likely to fluctuate from year to year. In recognition of this, a grants maintenance reserve is maintained. In years when net income from investments is higher than the grant levels, surplus income will be transferred to this reserve. In years when there is insufficient income to sustain the level of grants, an appropriate amount will be transferred from the grants maintenance reserve to income.

H. Basis of Recognising Components of the Financial Statements

The following general accounting policies are adopted:

Assets

A transaction results in an asset being recognised in the statement of financial position when it will probably give rise to ongoing benefits for the group and those benefits can be measured with reliability.

Liabilities

A transaction results in a liability being recognised in the statement of financial position when it will probably give rise to the need for the group to sacrifice assets in the future and those sacrifices can be measured with reliability.

Revenue

Revenue is recognised in the statement of financial performance when a transaction gives rise to an increase in the value of the group's net assets, and that increase can be measured with reliability.

Expenses

An expense is recognised in the statement of financial performance when a transaction results in a decrease in the value of the group's net assets, and that decrease can be measured with reliability.

Classification of Assets and Liabilities Between Current and Non-current

An amount is classified as current when it is expected to be settled or extinguished within one year of the date of the financial statements. All other amounts are classified as non-current.

I. Property, Plant and Equipment (Parent)

Property, plant and equipment are initially stated at cost and then depreciated on a straight line basis. Land and buildings are stated at valuation as determined by an independent registered valuer. The basis of valuation of the land and buildings is highest and best use. The estimated useful lives of fixed assets are as follows:

Land	Indefinite
Buildings	30-40 years
Furniture and fittings	3-15 years
Office equipment	3-8 years
Motor vehicles	5-8 years

J. Property, Plant and Equipment (Group)

Property, plant and equipment are initially stated at cost and then depreciated using maximum rates approved for taxation purposes. The rates and method applied are as follows:

Furniture and fittings	11.4% – 18.0% Diminishing value
Office equipment	22.0% – 60.0% Diminishing value
Motor vehicles	7.5% Diminishing value
Other assets	48.0% Diminishing value

K. Investments With Fund Managers

Investments with fund managers are stated at market value and report realised and unrealised gains or losses on holding these investments in the statement of financial performance. These gains or losses are shown in the statement of financial performance as income from revaluation of investments.

L. Other Investments

Cash investments are stated at cost plus interest credited or accrued to balance date.

M. Accounts Receivable

Accounts receivable are stated at expected realisable value.

N. Rental payments

Invest South Limited Group leases its premises in addition to certain items of plant and equipment. Operating lease payments, where the lessors effectively retain substantially all the risks and benefits of ownership of the leased items, are included in the determination of the operating surplus/(deficit) in equal instalments over the lease term.

O. Debt Funding Advances

Invest South Limited (a subsidiary) has advanced monies to non-related entities as part of its core business activity. Interest is charged on these advances and accrued where necessary. The investments are recorded at expected realisable value.

P. Impairment

If the estimated recoverable amount of an asset is less than its carrying amount, the asset is written down to its estimated recoverable amount and an impairment loss is recognised in the statement of financial performance.

Q. Grants

Grants are recognised when they are approved by the trustees. Unpaid grants are recorded as a liability.

R. Goods and Services Tax

The parent is not registered for goods and services tax. The parent financial statements are prepared using GST inclusive accounting. The subsidiary of Invest South Limited Group is registered for GST and all assets and liabilities have been stated exclusive of GST with the exception of receivables and payables which are stated inclusive of GST.

S. Income Taxation

The parent provides for income tax on its net income after adjusting for tax accounting differences and any beneficiaries' income determinations made pursuant to section OB1 (226) of the Income Tax Act 1994. However, with effect from 1 April

2004, community trusts, including the Community Trust of Southland, became exempt from income tax pursuant to CB4 (1) (m) of the Income Tax Act 1994.

Invest South Limited Group follows the income taxes payable method for accounting for income tax.

T. Statement of Cash Flows

Operating cash flows includes interest and dividends paid or credited to investment funds under management and any upward or downward revaluation of funds during the period. Cash movements in funds invested are recognised in investing activities.

U. Changes in Accounting Policies

Uniform accounting policies have been applied throughout the trust and group and on a consistent basis with those of the previous period.

The charitable company Southland Community Trust Charities Limited (SCTCL) was not liquidated prior to 31 March 2006, and therefore the funds of SCTCL do not (and never will) form part of the trust's reserves that may be distributed tax free under section HH3 (5) and (5A) of the Income Tax Act 2004.

However, on a consolidated basis, funds of SCTCL have been included in "amounts available for tax free distribution" as these can only be distributed to charities under SCTCL's constitution. Unlike the trust, SCTCL's funds do not technically carry the tax free nature, however, as there is the restriction in SCTCL's constitution, no tax should ever be payable on these funds and therefore they have been disclosed with the trust's tax free amounts.

12. Debt Funding

As at 31 March 2006, the following issues are relevant regarding the current debt funding:

The receivership of Abalone NZ Limited was completed on 15 July 2005. Invest South Limited had provided for a loss on the investment in Abalone NZ Limited of \$355,000. However, at the conclusion of the receivership, Invest South Limited recovered \$17,427.

The receivership of Gas Hornby Limited was completed on 23 September 2005. Invest South Limited provided for a loss on the investment of \$373,667. However, at the conclusion of the receivership, Invest South Limited recovered \$48,249 and total receiver's fees of \$55,973 being \$38,413 relating to the 2005 financial year and \$17,560 in the 2006 year.

The board of Invest South Limited has initiated legal proceedings against Enno Oudshoorn and Klaas Smak under the terms of the investors' agreement signed when Invest South Limited initially invested \$680,000 capital in Tulip International Limited. The agreement provides that in the event of default, Invest South Limited has the right to put the shares back to Enno Oudshoorn and Klaas Smak at original cost. Default occurred on the loan advanced to Tulip International Limited and the company was placed into receivership.

Exposure to currency, interest rate and credit risk arises in the normal course of the fund managers' management of the group's investments. A range of hedging policies are in place whereby the fund managers use derivative financial instruments as a means of managing exposure to fluctuations in foreign exchange rates and interest rates. While these financial instruments are subject to the risk of market rates changing subsequent to acquisition, such changes would generally be offset by opposite effects on the items being hedged.

20. International Financial Reporting Standards

In December 2002, the New Zealand Accounting Standards Review Board announced that the New Zealand International Financial Reporting Standards (NZ IFRS) will apply to all New Zealand reporting entities for the periods commencing on or after 1 January 2007. Entities have the option to adopt NZ IFRS for periods beginning on or after 1 January 2005. The trust has not yet made a decision with respect to an adoption date.

The Community Trust of Southland has not yet started a project to assess the key differences in accounting policies between NZ IFRS and current New Zealand generally accepted accounting principles (GAAP) with a view to determining the impacts on the financial statements that are expected to arise on transition. As The Community Trust of Southland has not yet completed an analysis of the differences between existing NZ GAAP and NZ IFRS, we are unable to reliably estimate the key differences in accounting policies or quantify the impacts to the financial statements that are expected to arise on transition to NZ IFRS.

The Community Trust of Southland intends to provide further information including quantification of the impacts of transitioning to NZ IFRS, in the financial statements for the year ending 31 March 2007.

21. Segmental Information

The trust's specified area includes all of the areas of Invercargill City Council, Southland District Council, and Gore District Council, the Heriot and Tapanui areas of Clutha District Council, and the Wakatipu Basin area of Queenstown Lakes District Council. The trust's principal activities are to invest the trust capital, both within the specified area and outside of the region, and to distribute grants for charitable, cultural, philanthropic, recreational and other purposes being purposes beneficial to the community principally within the trust's specified area.

22. Financial Instruments

General

The group states its investments in managed funds at estimated market value. The trustees consider that the fair value of the financial assets is identical to the value in the statement of financial position.

Concentration of Credit Risk

The group from time to time has significant funds in trading bank deposits. The group limits risk by spreading the deposits over several trading banks. The group has not required collateral or other security to support its financial instruments. The group further limits risk through its policy of placing investment funds with five separate fund managers, with each fund manager having an investment mandate which requires that they diversify their investments on the group's behalf. The group has sought and obtained the advice of professional financial advisors prior to making its investment allocation and placement decisions.

Interest Rate Risk

The bank deposits are sensitive to changes in interest rates, as are a proportion of the funds managed by the fund managers.

23. Related Parties

There were no related party transactions during the year (2005: nil).

24. Subsequent Events

Subsequent to 31 March 2006, there were no significant events of which readers of the financial statements need to be aware.

(2005: Subsequent to balance date, Invest South Asset Management Limited received the initial deposit for the sale of the Kingston Flyer to a third party. The agreement for sale of the train was signed prior to 31 March 2005. The final balance completing the sale was received on 14 July 2005.)

Audit Report

To the Trustees of the Community Trust of Southland

We have audited the financial statements. The financial statements provide information about the past financial performance and financial position of the trust and the group as at 31 March 2006. This information is stated in accordance with the accounting policies set out.

Trustees' Responsibilities

The trustees are responsible for the preparation of financial statements which fairly reflects the financial position of the trust and group as at 31 March 2006 and the results of their operations and cash flows for the year ended on that date.

Auditors' Responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the trustees and report our opinion to you.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the trustees in the preparation of the financial statements;
- whether the accounting policies are appropriate to the trust's and group's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with New Zealand Auditing Standards issued by the Institute of Chartered Accountants of New Zealand. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to obtain reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial statements.

Our firm carries out other assignments for the trust and certain of its subsidiaries in the area of grant audits. The firm has no other interest in the trust or any of its subsidiaries.

Unqualified Opinion

We have obtained all the information and explanations we have required.

In our opinion:

- proper accounting records have been kept by the trust as far as appears from our examination of those records;
- the financial statements:
 - comply with New Zealand generally accepted accounting practice; and
 - fairly reflect the financial position of the trust and group as at 31 March 2006 and the results of their operations and cash flows for the year ended on that date.

Our audit was completed on 22 September 2006 and our unqualified opinion is expressed as at that date.

WARD WILSON, Invercargill.
