## **8 Registered Game Preserves**

Game preserves provide opportunities for upland game hunting on a commercial basis. Fish & Game New Zealand recognises that they do not involve the hunting of the wild game resource, but rather they raise and/or release all the birds that are available for hunting. They increase the available hunting opportunities in several ways, both on and adjacent to the preserve, and they do so without using either birds or land that would otherwise have been freely publicly available.

In order to ensure that they meet legal and ethical requirements, Fish & Game New Zealand requires that all game preserves be approved and licensed to ensure the following results:

- a) The legal and boundary descriptions of all game preserve areas are fully defined.
- b) Hunting on game preserves is in accord with the conditions specified in this Gazette Notice.
- c) There is no waterfowl hunting commercially available on game preserves, or anywhere else.
- d) Management of game birds and hunting on game preserves complies with an agreed code of conduct.
- e) All hunters are licensed by Fish & Game New Zealand.

<sup>6</sup>Section 18(1)(f)(vi) of the Wildlife Act 1953

Any property listed under any heading of “Registered Game Preserve” in this notice is a registered game preserve for the purposes of this notice regardless of the property’s name.

## **9 Paradise Duck**

Any reference to Paradise Shelduck in this notice is to the same species referred to as Paradise duck elsewhere in this notice and the Wildlife Act 1953.

## **10 Pegging Day**
