J. A. HICKSON, } Wardens.
JOHN McANULTY, }

Superintendent's Office, Auckland,
17th March, 1854.

The following Extract from the *New Zealand Government Gazette* is republished for general information.

R. H. WYNYARD,
Superintendent.

Colonial Secretary's Office,
Auckland, 7th March, 1854.

HIS Excellency the Officer administering the Government, has directed that the following notice, relative to a Lighthouse recently erected on Gabo Island, off Cape Howe, on the coast between Sydney and Melbourne, should be published for general information.

By His Excellency's command,
ANDREW SINCLAIR,
Colonial Secretary.

Colonial Secretary's Office,
Sydney, 29th December, 1853.

NOTICE TO MARINERS.

HIS Excellency the GOVERNOR GENERAL directs the publication, for general information, of the subjoined notice, containing a description of the Light which has been established at Gabo Island, and which he has been pleased to designate the "Flinders Light," in honour of the late Captain Matthew Flinders, Royal Navy, and in testimony of the eminent services rendered by him to the Australian Colonies, by the numerous

hydrographical surveys which he made of the Coast and Harbours.

By His Excellency's command,
E. DEAS THOMSON.

FLINDERS LIGHT, GABO ISLAND.

The Lighthouse on Gabo Island, off Cape Howe, is situated in

Latitude . . . 37° 34' 20" South.

Longitude . . . 149° 54' 40" East.

It was completed and lighted on the 28th November, 1853, and a light will in future be exhibited from sunset to sunrise.

The Lighthouse is a skeloton timber erection, painted White; the roof and framing of the Lantern painted Red; and the Ventilating Ball painted Yellow.

It stands nearly in the centre of the Island, about three-quarters of a mile from its southern point, upon a sand hill 157 ft. 6 in. above the sea. The centre of the Light is 21 ft. 6 in. above the sand, making a total of 179 ft. above the sea.

The following Magnetic Bearings are taken from the Lighthouse:—

Cape Howe . . . N. 32 E.

Ram Head . . . S.W.

Variation of Compass . 11° E.

The Light is a fixed White Light of the First Class, consisting of 24 Catroptic Lamps in 2 ranges, illuminating the whole horizon.

The Light is eclipsed by a small range of sand hills from S. 15° E. to S. 4° W. (in all 19 degrees), to a distance averaging about 2 miles out to sea.

It is estimated that the Light can be seen 20 miles distant in clear weather.
