Answers to Queries respecting the general management of the Gaol.

Q. 1.—General description of the prison; whether common gaol, house of correction, or otherwise? (To be accompanied by a ground plan of the buildings, &c.)

A. The prison is a wooden erection, partly upon a scoria foundation, and partly upon blocks. It is a common gaol and house of correction, and is divided into two parts; one for criminals, &c., and the other for debtors and female prisoners. A ground plan is hereunto annexed.

Q. 2.—Under whose jurisdiction and superintendence; and what measures are adopted for securing the visitation of the prison by the local Magistrates, or other authorities? (A copy of the rules and regulations to be forwarded with the return.)

A. Under the jurisdiction and superintendence of the Sheriff of the Province. No steps have yet been taken for visitation by the local Magistrates. A copy of the rules and regulations of the prison is hereunto annexed. Two visiting Magistrates have been appointed for the purpose of adjudicating under the Prison's Ordinance, Sess. 7, No. 7.

Q. 3.—Number of officers, and how appointed? Do all the officers reside in the prison? Are female prisoners attended by female officers exclusively?

A. Four officers, viz., a gaoler, turnkey, extra-turnkey, and overseer of hard labour men, all resident within the gaol. The gaoler is appointed by the Governor, the other officers by the Sheriff. There is no female officer connected with the gaol.

Q. 4.—Number of classes, divisions, or wards day-rooms, work-rooms, and air-wards, (with reference to the plan,) and whether the same can be extended or increased?

A. On the criminal side of the prison there are three classes of cells, viz., felons' cells; for prisoners convicted of larceny, misdemeanors, and petty offences; and a cell for prisoners committed for trial.

Q. 5.—Number of sleeping cells, solitary or dark cells, &c.; and if any are below ground?

A. Nine sleeping cells, two solitary cells; none below ground.

Q. 6.—Dietary, or weekly allowance, and weekly cost per head for the different description of prisoners?

A. The dietary scale is annexed:—No. 1 is the punishment scale, the average weekly cost per head of which during the year has been 3s. 5d.—No. 2 is the usual scale for ordinary prisoners, the average weekly cost of

which has been 5s. 9½d. per head.—No. 3 is the scale for good conduct, and those requiring better sustenance. The average weekly cost of it during the year has been 7s. 3½d. per head.

Q. 7.—Allowance of clothing and bedding, and cost per head?

A. Allowance and cost per head. viz. :—	
1 pair blankets	£1 0 0
1 rug	0 6 6
2 smock frocks	0 6 0
2 pair trousers	0 7 0
2 do. shoes	1 12 0
	£3 11 6

Q. 8.—Hours of labour and exercise?

A. Eight hours work for men sentenced to hard labour, viz., from 8 to 12 and 1 to 5. Each unconvicted prisoner has four hours exercise daily.

Q. 9.—Description of employment and hard labour?

A.—The hard labour men are employed in breaking stones for metalling the roads, and incidental work connected with the gaol. The routine of occupation is as follows:—From 6 a.m. to 7, washing and cleaning cells, packing bedding; breakfast 8, calling over names and mustering to work; 8 to 12, work; 12 to 1, dinner; 1 to 5 (except Thursdays and Saturdays, on which days to 4½) work; 5 to 6, washing and arranging cells and beds, and reading books provided or allowed by the gaol; from 6 p.m. to 6 a.m. in cells. On Thursdays from 4½ to 5 is employed in prayer and reading with a Church of England Clergyman. On Saturdays from 1 to 6 p.m. the prisoners are employed in washing clothes, reading, and exercise. Women are employed in making clothes for the prisoners.

Q. 10.—Amount of earnings, and how applied; in what proportion to the prisoners, to the officers, or to the fund for the maintenance of the prison?

A. The prisoners' labour is entirely devoted to the public works.

Q. 11.—Whether the classification directed by the Colonial Act has been observed; if not, for what reasons; and what measures have been taken to remedy this defect?

A. Not in force. The limited construction of the gaol renders it impracticable to adopt the system of classification, as directed by the Act.

Q. 12.—Are convicted prisoners prohibited from receiving visits or letters, or any articles of food or clothing from their relatives or friends; if not, under what restrictions?

A. As to visits, yes. Letters are admitted, subject to the gaoler's inspection. Clothing is not admitted. Small quantities of tea and sugar are allowed to be given when any prisoner is sick.

Q. 13.—Is there a chapel in the prison, or suitable apartment for the performance of religious services? How are the prisoners separated therein?

A. No; divine worship is at present held on

Sunday in that part of the gaol set apart as a hospital. The prisoners can only be separated by distance, and are thus classified and arranged:—females, unconvicted prisoners, petty larceners, &c.

Q. 14.—What duties are performed by the Chaplain? What provision is made for the instruction of prisoners? And are they supplied with bibles and other suitable books?

A. A Colonial Chaplain attended, and read the service and preached every Sunday, at 10 a.m., until 30th September, 1853. He also read the service, heard the prisoners read the Bible, and expounded the Scriptures to them on Thursday evenings. The appointment of Colonial Chaplain having ceased on that day, a Clergyman of the Church of England has since then discharged those duties. At present there is no provision for instruction. Each prisoner is supplied with a Bible and Prayer Book, and they are allowed other suitable books.

Q. 15.—Are dissenting Ministers allowed to have access to the prisoners; and if so, at what times, and under what restrictions?

A. The Catholic Priest attends every Sunday; other Ministers attend occasionally. There is no restriction upon the visits of dissenting Ministers at reasonable times.

Q. 16.—What duties are performed by the surgeon? Are separate buildings or apartments provided for the sick?

A. The surgeon attending the gaol visits prisoners ill. A portion of a building formerly used as a debtor's day room is now used as a hospital.

Q. 17.—What diseases have been most prevalent during the year (in reference to Nos. 10 and 11, Return No 1, page 165)?

A. A return showing the number of prisoners ill, and the diseases prevalent, is annexed.

Q. 18.—Reasons for non-employment of prisoners (in reference to No. 8, page 165)?

A. Of the 119 males not employed, 106 were prisoners committed during a period at which the Government provided no work for them; 13 were convicts who were unemployed in consequence of no regulations having been made by Government for their employment, as required by the Secondary punishments Act, 1854. This Act was assented to 16th September, 1854, before which, after transportation had ceased, no legal provision could be made. 1 female committed for trial and discharged.

Q. 19.—Reasons for punishment, by whipping, irons, solitary confinement, or otherwise?

A. No whipping. Irons only are used in cases of attempted escape. Solitary confinement for attempting to escape, disobedience to orders, and breach of prison discipline.

Q. 20.—Is there any insane person in confinement? State his or her name and age, and for what offence committed? How long has he or she been in confinement, and is such person separated from the other prisoners?

A. None.

Q. 21.—Are any, and what fees demanded of debtors, or of any other prisoners, either at their admission to, or discharge from, the gaol?

A. None.

22.—GENERAL OBSERVATIONS:—The gaol is extremely insecure, and very unhealthy, from its low situation. Likewise anything like a classification of the prisoners is impossible. The cells are not ventilated, and yet from there not being a sufficient number of them, as many as eight are frequently confined together, the average size of each cell being only 10 feet square.

RULES and REGULATIONS of Her Majesty's
GAOL, at Auckland, in the Province of
Auckland and Colony of New Zealand.

1. Every prisoner awaiting trial or under sentence of transportation shall be allowed two hours' exercise in the yard in the forenoon and two hours in the afternoon of every day. At the hour of exercise each prisoner is to be pointed out to the sentry by the turnkey or officer on duty in the gaol, and such prisoners are not to be allowed to go from under the eye of the sentry during the hours of exercise, at the expiration of which time they are to be returned to the care of the turnkey to be locked up.

2. No prisoner is allowed to visit or go into any cell other than the cell he sleeps in, nor will he be allowed to converse with the guard or with any other prisoner.

3. No singing, loud conversations, or angry expressions will be allowed. Games and amusements of any kind are strictly prohibited, and tobacco strictly forbidden to be used in any shape.

4. Any prisoner disobeying the orders of any officer of the gaol, or showing inattention, disrespect, swearing, or using obscene or abusive language, or breaking any of the rules will be severely punished.

5. The most exact cleanliness and order to be enforced by every officer of the gaol, and the officer on duty to report to the gaoler every defect or neglect connected with the prison.

6. Every prisoner is to attend Divine Service at the appointed time, and to behave himself with the strictest propriety.

7. No prisoner is entitled to the rations on scale No. 3, unless his good conduct merits it, and then in no case without the approbation of the sheriff.

8. Every prisoner (except in case of sickness) is to take his meals in the mess-room, and on no account to be allowed to eat them in his cell.

9. The officer on duty is to see every morning that the bedding be folded up, and each cell swept, and washed if necessary, and then locked up.

10. Every prisoner is to be searched and his name called over at the time for locking up for the night, by the officer on duty.

11. The officer on duty, at eight o'clock in the morning, is to muster and call over the names of the hard labour men, for work, and hand them over to the overseer who is to take them to their respective places of work, (working hours from 8 o'clock in the morning until 12; afternoon, 1 o'clock until 5.)

12. No prisoner shall be allowed to receive provisions of any kind whatever from his friends, but is to live exclusively on gaol rations.

13. The keeper of every gaol shall exercise his power with temper, and without favour, partiality, or personal resentment; he must not strike a prisoner, or use provoking language, and shall require and enforce humanity towards the prisoners from the turnkeys and subordinate officers.

14. The turnkeys and subordinate officers of the gaol shall never be absent without leave from the gaoler or visiting magistrate. They shall not strike any prisoner, or use provoking language. They shall obey all orders given to them by the gaoler. They shall bring nothing into the gaol without his knowledge and permission. They shall neither give nor sell anything to any prisoner, nor shall they convey to or from a prisoner anything whatsoever, without the knowledge and permission of the gaoler.

VISITING DAYS.

Relations of any unconvicted prisoner confined in this gaol will be permitted to visit such prisoners on Saturdays between the hours of 12 and 2, upon application at such times to the keeper; but on no other days, and at

no other times, upon any pretence whatever. No person will be allowed to visit any prisoner but in the presence of one of the keepers of the gaol, and no visit is to exceed the space of 20 minutes.

CORRESPONDENCE.

All letters and communications (excepting as hereinafter specified) intended for any prisoner must be addressed unsealed to the care, and sent through the hands, of the head keeper, who is at liberty, if he thinks fit, to open such letters and communications. All letters and communications from the legal adviser of any prisoner will be received and delivered sealed, provided that every such letter or communication is signed on the outside by such legal adviser.

- 7. Report on Onehunga (Queen-street) Road.

as specified in the margin, commencing on or about the beginning of last May, and now terminated, or in progress of completion.

I have the honor to be,

Sir,

Your most obedient

Servant,

G. O. ORMSBY,

P. R. S.

His Honor
the Superintendent.

GREAT SOUTH ROAD, in the Village of Otahuhu.

The following are the particulars of the Expenditure and Improvements :—

Number of chains completed from about the 1st of May to the 7th of July, including forming, rough metalling, gravelling, and covering with shell stuff	Chains.	31
Number of chains formed in advance of said work		1
Number of loads of metal carted, at 5s. per load		1316½
Number of days' work performed by labourers, at 6s. per diem		401¾
There have been, in addition to this work, two considerable and expensive culverts made, together with cuttings and fillings, side drains and ditches.		
Total cost of work, including incidental repairs to other parts of the neighbourhood	£ s. d.	615 5 3
The total cost at per chain has been		19 16 11
G. O. ORMSBY, P. R. S.		

GREAT SOUTH ROAD from cutting by Mr. Farmer's residence, to the commencement of the broken stone at the causeway, opposite Mr. McLean's.

This part of the Great South Road by Mr. Farmer's gate commences with a cutting, which has been completed, say 7 x 132 x 25. Side paved drains have been formed at the base of the cutting, and a portion of the corresponding parapet made with a protecting wall. After this, the road from Mr. Farmer's gate would form one section to the first cross road going towards Otahuhu, and from said cross road to the end

of the causeway opposite Mr. McLean's, the second section.

1st Section.—The road from the top of the cutting to the cross roads has been well formed, metalled, and gravelled, with side drains, &c., complete; a considerable portion of the quarry has been removed also.

2nd Section.—From hence to Mr. McLean's causeways have been made as follows:—

	feet.	x	feet.	x	feet. in.	} greatest depth.
1.	92	x	24	x	1 6	
2.	110	x	24	x	1 0	
3.	108	x	24	x	1 6	
4.	66	x	24	x	3 0	

The quarrying as follows:—

feet.	x	feet.	x	feet.
90	x	33	x	4½

In addition to the foregoing particulars, improvements have been made on many parts of the road, such as drains to carry off surface water, filling in ruts, and even drawing gravel to said ruts when required.

There are some few accounts not presented which render it impossible to give so exact a sum total of expenditure as in other cases; but the amount, however, when all accounts are paid, will be as near as possible up to date £383 17s. 7d.

The length of Section 1, 30 chains.

The length of Section 2, 96 chains.

G. O. ORMSBY,
P. R. S.

PANMURE AND OTAHUHU ROAD.

To have done more to this road than render it passable for carts would have been impossible, as the sum voted in the margin £120. will show.

The following are the particulars of the Improvements and Expenditure.

CAUSEWAYS.

Dimensions in feet.				Chains Long.	Feet broad.	
No.	Length.	Breadth.	Greatest depth.			
1	118	16	3	2½	15	} Roughly metalled. Formed & filled in, with side & culvert drains,
2	26	15	5	21	15	
3	15	15	2	2	15	
4	12	22	2	0	0	

The total cost of this has been £114 7s. leaving the balance for any incidental repairs. The time occupied in labour was about three weeks.

The road has been passable for carts during the last six weeks, and is much used.

G. O. ORMSBY,
P. R. S.

HOWICK ROAD, from the Church to the beach.

The distance from which the metal had to

be drawn—from Pigeon Hill—renders the expense of road making here (as almost the whole of the road from the Panmure Ferry to Howick Beach) very heavy.

The Improvements and Expenditure are as follows:—

28 chains of Road, raising in centre and formed with side cuttings and drains.

11½ chains of road, completed, including rough metal, gravel, and shell stuff, 14 feet wide, 8 ins. deep.

Cost per chain £17 17s.

Total cost of work, £191 7s. 6 d.

Sum voted, £200.

G. O. ORMSBY,
P. R. S.

HOWICK ROAD from the Ferry to the Church.

The expense of carting metal from Pigeon Hill to the Ferry was so enormous, that I considered it my duty to stop the work previous to which some few chains were formed and a few yards metalled, with one coat of coarse stuff.

Each load of metal cost 15s., besides the cost of raising, filling, and spreading,

Sum expended £33 4s. 9d.

G. O. ORMSBY,
P. R. S.

EPSOM ROAD to ONEHUNGA.

I found it absolutely necessary to employ two men on this road filling in ruts. I have also sent several loads of metal by the Government cart. £12 would as yet cover the expenditure.

G. O. ORMSBY,
P. R. S.

ONEHUNGA (QUEEN-STREET) ROAD.

Two men have been, and are now employed, filling in ruts on this street. The Government cart has also been employed drawing metal to this road.

A balance of £50 remains over, and a few pounds have only been expended, say £15.

G. O. ORMSBY,
P. R. S.

Provincial Road Surveyor's Office,
Auckland, 1st August, 1855.

SIR,—I have the honor to acquaint you, that the Road leading from Panmure across the Scoria, to the South Road, is now passable for carts.

The following are particulars connected with the said road.

{ Causeways Fillings Cuttings Say 20, averaging from 200 links to 50 links x 16½ feet broad.	Commenced 19th May,	} Cost, £243
	Finished 31st July.	

I have further to observe that there is a fair balance in hand towards gravelling parts of the said road, and the gravelling is now in progress.

I have the honor to be,
Sir,
Your most obedient, humble servant,
G. O. ORMSBY,
P. R. S.

His Honor
The Superintendent.

Auckland, 7th August, 1855.

THE subjoined Correspondence, supplementary to that which was published in the Provincial Gazette No. 24, (p. p. 149, 150,) is published for general information.

WM. BROWN,
Superintendent.

Colonial Secretary's Office,
Auckland, 28th July, 1855.

Sir,—

I have the honor, by the direction of his Excellency the Officer Administering the Government, to acknowledge the receipt of your Honor's letter of the 24th inst., in reply to mine of the 20th instant, on the subject of the appointment of the staff required for the service of the Waste Lands Board and of the defrayal of certain expenses connected therewith. I am further directed to inform your Honor that his Excellency did not refuse, but was prepared to carry out the arrangement proposed, unless your Honor concurred in the new course suggested by the new features the case had assumed in consequence of the contemplated meeting of the Provincial Council.

I have the honor to be,
Sir,
Your Honor's most obedient
humble servant,
ANDREW SINCLAIR,
Colonial Secretary.

To His Honor
The Superintendent
of Auckland,
Auckland.

Superintendent's Office,
Auckland, Aug. 1, 1855.

Sir,—

I have the honor to acknowledge receipt of your letter No. 183, of the 28th instant, having reference to the payment from the Land Fund of the expenses connected with the Waste Land Board, and informing me that his Excellency did not refuse, but was prepared to carry out the arrangement proposed unless I concurred in the new course

suggested by the new features the case had assumed in consequence of the contemplated meeting of the Provincial Council.

The original arrangement, under your letter of the 22nd ult., was conveyed in these terms, namely, that "his Excellency was prepared to sanction the payment of the necessary expenses of the Board by the General Government out of the Land Fund.

It appears to me that the salaries of Commissioners are necessary expenses of the Board, but as the General and Provincial Government have differed in their respective interpretations of the arrangements, I would suggest, to obviate risk of further misunderstanding, that the General Government should state which of the items in the enclosed Schedule of expenditure they are prepared to undertake the payment of, in order that I may recommend that provision be made by the Council for such items as the General Government may reject.

I have, &c.,
W. BROWN,
Superintendent.

The Honorable
The Colonial Secretary.

Colonial Secretary's Office, Auckland,
6th August, 1855.

Sir,—

In reply to your Honor's letter of the 1st instant (No. 1131) having further reference to the payment of expenses connected with the Waste Land Board of this Province, I am directed by his Excellency the Officer Administering the Government to repeat, as will be seen from the previous correspondence on the subject, that the General Government consented to undertake the payment, until the meeting of the Provincial Council took place, of those officers that are necessary for carrying on the operations of the Waste Lands Board, with the exception of the Commissioners, and I have accordingly to inform your Honor that his Excellency is prepared to pay those officers until the Provincial Council shall have had an opportunity of making provision for them, and that after that time it will be left altogether to the Provincial Council to make that provision.

His Excellency is also prepared to adopt

measures to reimburse the Province upon the principle suggested in my letter of the 20th ult.

I have the honor to be,
 Sir,
 Your Honor's most obedient
 humble servant,
 ANDREW SINCLAIR,
 Colonial Secretary.

His Honor
 The Superintendent,
 Auckland.
