Commissioner of Crown Lands,
Auckland, 18th April, 1860.

THE following Bye-Law is published for general information.

DANIEL POLLEN,
Commissioner Crown Lands.

At a meeting of the Wardens for the Hundred of Panmure, held this 24th day of March, 1860, it was resolved as follows, viz.:—That all Bye Laws heretofore in force in the said Hundred be repealed, and the following substituted instead.

1. That each license holder be allowed to run five head of Great Cattle on the Waste Lands of the Hundred for the year 1860, three head of small cattle being considered equivalent to one head of Great Cattle.

2. Any Pig found on the run without a ring to prevent its rooting may be impounded, and the owner thereof shall pay to the Wardens the sum of 2s. 6d., in addition to the poundage fee, if impounded, for every such Pig so found.

3. Any person found guilty of worrying Cattle with dogs on the Waste Lands of the Hundred shall forfeit and pay for every such offence the sum of two pounds sterling, exclusive of the amount for any damage done to such Cattle, which may be recovered by the owner thereof.

4. No person shall be allowed to run an Entire Beast on the Waste Lands of the Hundred without leave in writing from the Wardens, under a penalty (if a license holder) of one pound sterling for the first offence, and for every subsequent offence two pounds sterling; if not a license holder he shall pay for the first offence the sum of two pounds sterling, and five pounds sterling for every subsequent offence,

5. That the owners of all Cattle found trespassing on the Waste Lands of the said Hundred shall pay for every head of such Cattle the sum of 10s. 6d. in addition to the poundage fees.

Superintendent's Office,
 Auckland, 18th April, 1860.

THE following Report of the Committee of the Provincial Council, appointed to take evidence and report upon the present state of the Burial Grounds in the neighbourhood of Auckland, and as to the advisability of closing such Burial Grounds upon certain conditions, and adopted by the Council, is published for general information.

JOHN WILLIAMSON,
 Superintendent.

R E P O R T.

Your Committee appointed to enquire into the state of the "Burial Grounds" in the neighbourhood of Auckland, and as to the advisability of closing them under conditions, have examined witnesses, and Report as follows:—

1. As to the present state of the Burial Grounds, your Committee are of opinion that (except the Burial Ground of the Jews) their management is defective, because, in the first place, no code of regulations has been issued to the Sextons defining the mode of interment, and no proper supervision has been exercised to ensure the general instructions given as to the depth of the graves (from four to six feet) being carried out.

And your Committee are further of opinion that had such instructions been carried out, the mode would still be defective and dangerous to the Public Health, inasmuch as sanitary science has proved that (especially in a wet clay soil) the size of the graves and the intervals between are as of much importance as the depth, and one precaution which the Board of Health insist on has been overlooked,—a sufficient drain round each cemetery to prevent the water mingling with other water which may be used by the people in the neighbourhood, to drain the ground, thereby hastening the progress of decomposition and lessening the miasma arising from the grave.

With such a system as is indicated above properly carried out, your Committee believe that the Burial Grounds might continue to be used to such limited extent as would be required, if the recommendations in the latter paragraph of this Report be carried out.

2nd. As to the advisability of closing the Burial Grounds, unconditionally, a difference of opinion exists, first because the Council has no authority to interfere with the disposal of Lands held on trust by a Grant from the Crown, and as many persons have had ground allotted to them in the various Cemeteries, under such trusts, these persons have at least a constructive right to such Grounds, and

cannot be interfered with in the exercise of such rights, and because, many actuated by feelings of piety and affection, desire to be laid in the same Grave with their parents or relations, would regard with feeling of sorrow and dissatisfaction, a law which could only be regarded by them as cruel, and in the present case uncalled for.

But, your Committee are unanimously of opinion, which opinion is sustained by the evidence received, that no dissatisfaction would arise at closing the Cemeteries under the following conditions,

1st. New Grounds to be laid out at a convenient distance from the Town, on an appropriate site.

2nd. The Ground allotted in the various Cemeteries to be still available, subject to such regulations, as may be passed with regard to the mode of Interment.

3rd. The right of Interment to be continued to those who have relatives in the said Grounds,

And in order to ensure the carrying out of the above objects, that an Address be presented to His Honor the Superintendent, praying him to endeavour in his place in the House of Representatives to have a Bill passed to enable him to carry out the same, pending which this Council earnestly invite the attention of the Clergymen of the various denominations to this Report.

JAMES THOS. BOYLAN,
 Chairman.
