CORRESPONDENCE WITH THE HONOURABLE COLONIAL SECRETARY RELATIVE TO
EXHIBITS FOR THE PROPOSED PHILADELPHIA EXHIBITION FOR 1876.

[CIRCULAR.]

Colonial Secretary's Office,
Wellington, 5th January, 1875.

SIR,—

I enclose, for your Honour's information, the copy of a letter which I have received from Sir Redmond Barry, the Chairman of a Royal Commission issued by the Governor of Victoria, to ascertain whether united action should be taken by all the Australasian Colonies to secure their proper representation at the Philadelphia Exhibition of 1876.

You will observe that the Victorian Commissioners propose that a preliminary Intercolonial Exhibition should be held at Melbourne, at which a judicious selection might be made of objects most suitable for ultimate exhibition at Philadelphia, with a view to their being forwarded in one shipment to America, so as to insure their arrival together, and admit of their being placed simultaneously in one court.

It appears to the Government that great advantage might be gained for these colonies by following the course indicated in the enclosed letter, should the time which remains be sufficient to admit of it. I should therefore feel obliged if your Honour would, at your earliest convenience, favour me with your opinion as to the probability of such a collection of exhibits being obtained from the Province under your administration as will, should the co-operation of the other Provinces be secured, insure a worthy representation of the Colony at the forthcoming Exhibition.

I have, &c.,

His Honour the
Superintendent, Auckland.

Offices of the Victorian Commissioners
for the
Philadelphia Exhibition of 1876.

Melbourne, 12th Nov., 1874.

SIR,—

1. I do myself the honour to inform you that His Excellency Sir George Bowen has been pleased to issue a Commission addressed to the gentlemen named in the margin, "giving Sir Redmond Barry, Chairman. The Hon. J. J. Casey, M.P. The Hon. J. F. Sullivan, M.P. The Hon. C. J. Jenner, M.L.C. James Munro, Esq., M.P. John McIlwraith, Esq. L. J. Sherrard, Esq. G. C. Levey, Esq., Secretary. " (us) authority to ascertain whether united action should be taken by all the " Australasian Colonies, to secure their proper representation at the Philadelphia Exhibition of 1876."
2. The Commissioners have adopted the belief that it is the desire of the inhabitants of New Zealand that the resources of that Colony should be represented in America, the new field of contention, with the like success as has been heretofore achieved in Europe.
3. I may premise that it has appeared to the Commissioners desirable that an Inter-colonial Exhibition should be held preliminary to that at Philadelphia.
4. Representations have accordingly been made by them to the Government of Victoria. That Government have resolved to ask Parliament to grant £2,000 to erect buildings within the grounds of the Public Library at Melbourne. These, with the great Hall, the Rotunda, and the Annexe, will afford ample space for the purpose. £3,000 will be placed on the estimates to meet the expenses of the Inter-colonial Exhibition. The project is submitted as calculated to conduce to the accomplishment of several important results.
5. The first great purpose to be served is to secure the combination of the five Colonies already established on the Continent of Australia, and the co-operation of New Zealand and Tasmania, and to concentrate their united exertions so as to impart to them the characteristics of a national movement.
6. By such a consolidation of the well-directed energies of the people (exceeding now two millions of souls), an economy of administration would be gained; a judicious selection of the objects most suitable for ultimate exhibition at Philadelphia might be made; of raw materials, types of the highest excellence would be assembled in groups distinguishing the zones of national production; the most approved works which denote the direction in which manufacturing ability, skill, and genius have been developed in the various centres of industrial enterprise would be brought together for comparison and exhibition.
7. A shipment of all of them at the same time for America from Melbourne, central and convenient for that purpose, would ensure the arrival of them together at the port of destination, and admit of their being placed in position simultaneously in one Court. Delays which have occurred in getting ready different Courts at Exhibitions held in Europe, so prejudicial to the reputation for activity and punctuality of certain classes of exhibitors, would be thus obviated, and an impression would be created at Philadelphia more striking, more effective, and more substantial than could be produced by the independent efforts of each isolated community.
8. The Commissioners consider, moreover, that such united action would tend materially to promote that mutual good understanding and those friendly relations which it is so desirable should on all occasions exist and be fostered by all Her Majesty's subjects in Australasia.
9. In submitting these views, the Commissioners present merely an outline of the project, the details of which will be enlarged upon when they are favoured with your reply. The leading proposition is, that a Preliminary Exhibition should be held, at which should be displayed all the objects to be sent to America; that representatives of each Colony should jointly decide on the shipments of the objects to be sent, and on the steps to be taken to secure the greatest measure of success at Philadelphia, each colony bearing its own share of the expense of transshipment, and a proportion of the subsequent charges of administration in America.
10. Authorised as the Commissioners are by the terms of their Commission to address themselves to you, I beg leave to ask that you will consider the proposed undertaking, and that the Commissioners may be favoured at your early convenience with an expression of the views entertained by you and the members of the Government of New Zealand on the subject.
11. If disposed to concur and lend the benefit of your much-valued aid, you may probably deem it advisable to appoint a Commission of gentlemen empowered to act with the Commissioners of Victoria, as also to invite contributions to the Intercolonial Exhibition, and make the necessary arrangements for the ultimate transmission of the objects to Philadelphia.

I have, &c.,

(Signed)

REDMOND BARRY,
Chairman.

The Honorable the Chief Secretary,
Wellington, New Zealand.

Superintendent's Office,
Auckland, 20th January, 1875.

SIR,—

I have the honour to acknowledge the receipt of your Circular-letter dated the 5th instant, covering a copy of a letter received from Sir Redmond Barry, the Chairman of a Royal Commission issued by the Governor of Victoria, to ascertain whether united action should be taken by all the Australasian Colonies in order to secure their proper representation at the Philadelphia Exhibition of 1876.

From that letter I learn that the Victorian Commissioners propose that a preliminary Intercolonial Exhibition should be held at Melbourne, at which a judicious selection might be made of objects most suitable for ultimate exhibition at Philadelphia.

I think it would be a matter of great importance to New Zealand that her resources should be worthily, and as fully as possible, represented in the forthcoming exhibition at Philadelphia. At the same time I am of opinion that the articles to be sent from this Colony should be forwarded direct to America, after careful selection and preparation under our own supervision, and that they should not be transmitted to another Colony in these seas for "judicious selection" there.

A direct commercial connection between New Zealand and America may be reasonably expected to grow and flourish under the permanent arrangements which are now being made for trans-Pacific communication by steam, and the Colony will thus be placed in the very best and foremost position for availing itself of the advantages to be derived from such a connection, which will undoubtedly be mutually beneficial to both countries.

To give effect to such a proposal as I have indicated, I would suggest that the several Provincial Governments of New Zealand should be requested and empowered to collect, for the Exhibition, the articles that might be considered most suitable, that the whole should be carefully classified and arranged, under the direction of a duly-qualified person appointed by the Colonial Government, and that they should be transmitted to America direct from this Colony. It would of course be advisable that the packages should be consigned to the care of a duly-accredited agent, whose duty it would be to obtain a fitting place for the New Zealand exhibits in the Exhibition Building.

I have, &c.,

(Signed) J. WILLIAMSON,
Superintendent.

The Honorable the
Colonial Secretary, Wellington.

Colonial Secretary's Office,
Wellington, 15th April, 1875.

SIR,—

Adverting to my circular letter of the 5th January last year upon the subject of the collection of a set of exhibits to be forwarded, as representing the resources of New Zealand, to the proposed Philadelphia Exhibition of 1876, I have the honour to inform you that the Government after mature consideration of the whole question have decided on making an effort to have the Colony represented at the Exhibition, but to forward the New Zealand contributions direct, instead of submitting them to previous exhibition and selection at Melbourne as proposed in Sir Redmond Barry's letter enclosed in mine above quoted.

It has also been thought advisable to confine the exhibits from New Zealand almost exclusively to the natural productions of the country in their raw state instead of endeavouring to exhibit manufactured articles produced in a country where manufactures are in their infancy, in juxtaposition with the productions of countries whose manufactures have been brought to a high state of efficiency.

2. The principal exhibits which have suggested themselves to the Government are :—

Wool
Grain of various kinds
Gold
Coal
Timber
Flax (including rope and other manufactured articles)
Kauri Gum (much used in the United States, and a carefully made collection of which would be of importance to this Colony)
Tanning Barks, with samples of Leather
Preserved Meats
Tobacco Leaf
Mineral Waters, and specimens of Minerals, including however only those which might possibly lead to profitable use.

3. I should be very glad if your Honour would kindly interest yourself to procure really good and well-prepared specimens of such of the above-named articles as are produced in the Province under your administration, with the exception of Gold specimens, which the Government will arrange to obtain through the Bank of New Zealand.

4. An application will be made to Parliament to provide the necessary funds for the purpose, and I should feel obliged if your Honour would furnish an estimate of the probable amount that will be required to defray the expense of making a collection of the products of the Province under your administration, and sending them to Wellington, where they will be packed, and forwarded to their destination.

5. I wish to impress upon your Honour that it is very desirable that the Government should carefully guard themselves against any responsibility as regards the return or final disposal of the exhibits. I trust therefore that you may be able to arrange that while the producer of each article is assured of receiving full credit for its production, the article itself shall be at the absolute disposal of the Government; to ensure which it will be necessary that each exhibitor who will not freely give up his goods for exhibition should be paid a fair valuation for them before they are sent away, excepting of course cases in which the exhibitors elect to give their own directions as to the disposal of their goods.

I have, &c.,

(Signed)

DANIEL POLLEN.

The Superintendent,
Auckland.
