#### NOTICE TO MARINERS.

##### Rock in Hawke's Bay.

THE Harbour-Master at Napier has reported to the Marine Board, that he has discovered a rock in Hawke's Bay, having a depth of only 12½ feet on it at low water—spring tides. He gives the following bearings:—

From rock to east end of Ahuriri Bluff S. by E.

From rock to west point of Bluff S.W. by S.

From rock to Cape Kidnappers S.E. ½ E.

The above bearings place the rock on the inner or southern portion of the shoal marked in Capt. Drury's charts with 4½ and 4 fathoms on it bearing N. by W. from Ahuriri Bluff, about five cable lengths distant.

A buoy has been placed ten fathoms north of the rock, by keeping outside of which vessels will clear the shoal east of the Bluff.

President Marine Board.
