VOL. IV.

WEDNESDAY, DECEMBER 17, 1862.

[No. 220.]

ADDRESS OF HIS HONOR THE SUPERINTENDENT.

ON OPENING THE SIXTEENTH SESSION OF THE
PROVINCIAL COUNCIL OF THE PROVINCE OF
OTAGO, 26TH NOVEMBER, 1862.

Mr. Speaker and Gentlemen of the Provincial Council—

The evidence of prosperity which exists on every side, and among every class, is a subject of cordial congratulation. The existence of a very extensive and highly remunerative Gold Field is now a thoroughly established fact; and each month affords additional reasons to induce a recognition of this fact in the appropriations of the public Revenue.

It will be our duty, as well as our highest wisdom to use every effort to locate permanently amongst us, in the interior of the country, the mining classes which have thronged to our shores; and, it is with pleasure I have observed a growing disposition among them to make this their home. Render the interior of the country accessible by the formation of a good road, directly connecting it with the capital; open out communications with the coast line both by river and land, and at the same time increase the facilities for settlement, and you secure a population which will not, as now, carry to other colonies for investment the rich produce of their labors gathered in our own fields.

The *Annual Returns* from the different departments which I will cause to be laid on your table, at an early date, will give you every information as to the nature and extent of the various works which have been undertaken during the past year.

Many *Bills* of an important character, and urgently demanded by the necessities of the times, will be introduced at the earliest period.

The *Estimates*, which will shortly be presented, will inform you of the probable amount of the Revenue for the current six months, and of the proposed appropriation.

You will perceive from the return of *Assets and Liabilities*, which accompanies the half-yearly financial statement, that the Province is in a position to command the highest credit in the money market, and that the Provincial debentures will meet with a ready sale at a fair premium. It is of vital importance to the Province that this character should be maintained, and that we should avoid such guarantees as would have the effect of impairing that credit, and injuriously affecting our loan operations.

It has become absolutely necessary to introduce a measure by which those who use the *public roads* shall also provide for the maintenance of them, otherwise, the extension and completion of roads to the outlying districts, whence the land revenue is at present princi-

pally derived, may be indefinitely postponed, to the serious injury of the inhabitants of those districts who bought land on the faith of a considerable portion of the revenues being appropriated for opening out the colony. Certain proposals will also be submitted to you for regulating supplementary grants to District Road Boards; these proposals being based on the land revenue derived from each district, will, I hope, meet with your favorable consideration.

The continued increase of the cost of some of the *Departmental Establishments*, disproportionate to the increase of the public revenue and expenditure, is a subject of the gravest importance. The whole machinery of Government should be reviewed, and the number of officers, and their salaries, adjusted on some well defined basis, excluding the operation of those disturbing influences, which, by creating exceptions, give rise to a general dissatisfaction. The reduction of an establishment is invariably destructive of efficiency, and therefore its undue extension should be guarded against.

A continuous stream of *female immigration*, under a system of assisted passages, gives every promise of reducing, to a considerable extent, that disproportion between the numbers of the sexes which was assuming an undesirable character.

I will communicate to you by message during the Session the arrangements which have been entered into for the construction of an *Electric Telegraph* from the *Waikato* to the *Bay of Plenty*, in connection with a general telegraphic system for the Middle Island; as also those arrangements which have been made for the establishment of Light-houses, both at the entrance of the Harbour, and in *Foveaux's Straits*.

A *West Coast Expedition*, under the Chief Surveyor, Mr. Thomson, accompanied by the Provincial Geologist, Dr. Hector, merely awaits your sanction. Whether regarded as necessary to complete the survey of the Province, the development of the Provincial resources, or as a tribute to science, it equally commends itself to your favorable consideration.

I have received a letter, which I will transmit to you in due course, from His Honor the *Superintendent of Taranaki*, asking whether certain facilities would be granted to those among the people of that Province who might desire to settle in Otago. Knowing your warmest sympathies are with this gallant long-enduring people, the victims of a cruel political complication, ready but prevented from righting themselves, I fully anticipate your reply.

While recording my admiration of the character of the great mass of those, who, from the neighbouring colonies, have reached our shores, I cannot refrain from expressing my regret that there is a considerable number of the *criminal element*; men, whose presence here is extremely undesirable, and whose penal servitude for life being shortened, but who are prevented from revisiting Britain, are visiting this Province. It is owing to their presence that our revenues are grievously crippled, the various branches of Police and

Goals demanding, respectively, no less than £22,000 and £9,000 per annum, exclusive of the large outlay for buildings. It is only reasonable that a penal establishment, external to the Province, should be created and maintained by the General Government out of the revenues of the colony. I have brought the whole subject in an emphatic manner before His Excellency's advisers. In the meantime, I will submit for re-enactment, with certain alterations, the *Criminals' Ordinance, 1862*, of the session before last.

I shall feel peculiarly gratified should you concur with me in considering that the time had arrived when a Provincial recognition should be accorded to the devotion and untiring exertions of the former leader of this colony, the *late Captain Cargill*.

The disposal of the *Crown Lands* of the Province, so as to encourage the settlement of population, the investment of capital in the immediate tillage of the soil, and the creation of towns, as also to produce a revenue for public purposes, so vitally essential to the progress of the Province, has been a cause of much anxious enquiry.

It is abundantly evident that our Land Regulations do not invite a *bona fide* settlement of population, neither is the marketable value of the land realized by the State, while the best portions of the country, those particularly adapted for agricultural settlement, are being alienated without being populated. I again most earnestly press the consideration of this most important subject during the present Session. I will take an early opportunity of communicating to you certain proposals which appear adapted to meet some of the evils complained of, and which will also enable you to anticipate by loan those resources which will be available when, by the expiry of the existing Pastoral Licenses and the consequent resumption of the land, the Government will be in a position to realize by way of lease a sum scarcely less than that derived from the sale of land at the present time. A measure so necessary to the full development of the country, now partially paralysed, and the preservation from forced sales of the land, now sacrificed, will doubtless commend itself to the judgment of His Excellency's advisers, and receive their cordial support.

So soon as the duties of the Session are over, I shall be happy to concur with you in a request to His Excellency the Governor that he may be pleased to *disolve the Council*.

I will not detain you any longer from the important subjects which will shortly absorb your attention, but content myself with the expression of an earnest hope that your counsels may be so directed from on High that the principles of constitutional government, the blessings of civil and religious liberty, the demands of an even-handed justice, and the preservation of peace and order may thereby be fostered, advanced, and attained.

I now declare this Council open for the despatch of business.

J. L. C. RICHARDSON,
Superintendent.

REPLY

TO THE ADDRESS OF HIS HONOR THE SUPERINTENDENT, AT THE OPENING OF THE PROVINCIAL COUNCIL, ON THE 26TH DAY OF NOVEMBER, 1862.

We desire to congratulate your Honor upon the undeniable evidences of prosperity which abound on every side; and, as we acknowledge that this prosperity is mainly owing to the existence of a very extensive and highly remunerative Gold Field, so we shall be prepared to unite with your Honor in the adoption of such measures as will encourage the development of the mining interest, and open out the communications of the interior with the coast line.

We shall be prepared, when the Estimates are before us, to enter into their consideration with a due regard to the requirements of the whole Province, and will take measures to adjust the strength and remuneration of the different Departments to the duties required of them, and the circumstances of the times.

The completion of the Main Roads of the Province, and the maintenance of those already made, will receive our earnest attention as subjects of paramount importance.

The important question connected with Telegraphic Communication, the establishment of Light Houses, and the Expedition to the West Coast, will all be maturely considered so soon as your Honor shall communicate with us on these subjects.

Our warmest sympathies being, as your Honor justly observes, with our gallant, long-suffering fellow-colonists of Taranaki, we shall be prepared favourably to consider the proposals which you may lay before us with a view to their relief.

The influx of a criminal class from Australia and Tasmania we regard as an evil of the greatest magnitude, which we shall consider it our duty to assist in removing by every constitutional means within our power.

We shall gladly avail ourselves of your Honor's suggestion, by making a public recognition of the devotion and untiring exertion of the late Captain Cargill, the first Superintendent of this Province, and the leader of the Colony.

We cordially participate in your Honor's anxiety on the subject of the disposal of the Crown Lands of the Province. The question is beset with many difficulties, but we assure your Honor that we shall approach the consideration of it with an earnest desire to effect the settlement and improvement of the country in such a manner as may promote the interests of the State, and every class residing within its boundaries.

We thank your Honor for the assurance that you will concur with us in a memorial to His Excellency the Governor to dissolve the Council so soon as the session is concluded.

Adopted November 27th, 1862.

ALEX. RENNIE, Speaker.

TUTU PLANT.

The following document is published for general information:—

Waitahuna, 3rd December, 1862.

SIR—I have the honor to forward for your information a description of the Tutu

Plant, as requested in yours of the 24th ult., for insertion in the public press; I append a brief description of the same.

I have the honor to be, Sir,

Your most obedient servant,

W. R. G. SAMUELS,
Surgeon and Coroner.

T. Dick, Esq.,

Provincial Secretary, Dunedin.

NOTICE TO NEW ARRIVALS.

The public are hereby cautioned against eating or using internally the Tutu Plant, the same being poisonous, and several persons having lost their lives by it.

The Tutu belongs to the *Coriaria* family, a shrub growing from three to four feet in height, with opposite square branches and opposite simple ribbed leaves. "somewhat resembling the well-known Senna leaf." The stem is very tenacious when green, the entire plant presenting a somewhat olive hue in the months of November and December. The berries of the Tutu are not unlike those of the elder tree, hanging in strings instead of clusters, as is the case with the elder. The poisonous properties of the Tutu has been long known in Otago from the number of human beings and also of cattle that have died through its poisonous effects.

MESSAGE No. 5.

THE SUPERINTENDENT loses no time after the receipt of the intimation that the "Criminals' Bill, 1862," has passed the Council, in assenting to the same on behalf of His Excellency the Governor.

J. L. C. RICHARDSON,
Superintendent.

To the Provincial Council
of the Province of Otago.

MESSAGE, No. 12.

THE SUPERINTENDENT intimates that he has assented to the "Executive Council Bill, 1862."

J. L. C. RICHARDSON,
Superintendent.

To the Provincial Council of Otago.
15th December, 1862.

TENDERS will be received at the office of the Provincial Secretary until 4 p.m. of Tuesday, the 30th instant, for the erection of a Fence round the Recreation Grounds, Dunedin.

Plans and specifications may be seen, and forms of tender obtained, at the office of the Provincial Engineer.

By order,

THOMAS DICK,
Provincial Secretary.

16th December, 1862.

Province of Otago, }
New Zealand, to wit. }

I HEREBY CERTIFY that JAMES DOUGLAS, of Dunedin, in the Province of Otago, has this day submitted for my examination his Diploma from the Faculty of Physicians and Surgeons in Glasgow, authorising him to practice as a Physician and Surgeon, in accordance with the provisions of an Ordinance, passed by the Legislative Council of New Munster, Session I., No. 2, of 1849, intituled "An Ordinance to define the qualifications, and to provide for the remuneration in certain cases of Medical Practitioners."

Dated at the Resident Magistrate's Court, Dunedin, this second day of October, 1862.

A. CHETHAM STRODE,
Resident Magistrate.

PANAMA ROUTE.

THE following letter, which was enclosed in a letter received from His Excellency THOMAS GORE BROWNE, Governor of Tasmania, by His Honor the Superintendent of Otago, is published for general information:—

Colonial Treasury,
Tasmania, 4th Dec., 1862.

SIR—

In compliance with your Excellency's request I have submitted to my colleagues in the Ministry the despatch from the Superintendent of the Province of Otago, New Zealand, on the subject of the establishment of Steam Postal Communication with the United Kingdom *via* Panama, and in reply I have the honor to state, that the Members of your Excellency's Government are glad to see that the neighbouring Colonies of New South Wales and New Zealand are about to establish Steam Communication with the United Kingdom *via* Panama, and hope the scheme will be successful, but regret that the state of the Public Finances of this Colony will not justify your Excellency's advisers in recommending your Excellency to submit to Parliament any appropriation of the Public Revenue of this Colony in aid of that Service.

Your Excellency is aware that this Government is under engagement with the other Australian Colonies to pay one moiety of the cost of the present Mail Service with the United Kingdom, conducted by the Peninsula and Oriental Company *via* Suez, and in all probability will be called upon to contribute a further sum in aid of the cost of a second Monthly Mail by the same route; and these arrangements for conveying the Mails between this Colony and the United Kingdom *via*

Melbourne *via* Suez will be ample for the wants of the commercial interests of this Colony for the present.

I have the honor to be,
Your Excellency's obedient servant,

THOS. D. CHAPMAN.

His Excellency Colonel Gore Browne,
&c, &c., &c.,
Government House.

OTAGO GOVERNMENT. TOWN LAND SALES.

OF Port Chalmers, at the Court House there, on Monday, the 5th day of January, 1863, at 12 o'clock.

Of Outram, at West Taieri Ferry, on Wednesday, the 7th day of January, 1863, at 12 o'clock.

Of Greyton, at the Thistle Inn, East Taieri, on Friday, the 9th day of January, at 12 o'clock.

Of Waihola, at the School House there on Saturday, the 10th day of January, at 12 o'clock.

Of Molyneux, at the Molyneux Ferry, on Tuesday, the 13th day of January, at 12 o'clock.

Of Kaitangata, at the Molyneux Ferry, on Wednesday, the 14th day of January, at 12 o'clock.

W. H. CUTTEN,
Chief Commissioner.

Waste Land Board Office,
Dunedin, 6th December, 1862.

CROWN LANDS DEPASTURING LICENSES WITHIN HUNDREDS.—The attention of settlers within Hundreds is drawn to the 57th Clause of the Land Regulations, which provide that a depasturing license shall be granted to every such applicant who shall apply for the same to the Waste Land Board, on or before the 1st day of January in each year, provided that he shall have deposited with the said Board a return in the form of Schedule D, hereunto annexed, of the number of acres occupied by him aforesaid. All persons who neglect to take out such licenses before the 1st of January will be excluded from voting in the election of Wardens. Licenses may be obtained for the Waihola Hundred by applying to J. Dewe, Esq., Tokomairiro; for the North and South Tokomairiro, upon application to Mr. W. H. Mansford, Tokomairiro; for the East Clutha, James Maitland, Esq., Kaitangata, or George Richardson, Esq., East Clutha; T. Bews, Esq., West Clutha (Warepa).

FORM OF SCHEDULE D.

I hereby declare that I occupy _____ acres with the permission of the Government or Waste Land Board.

To the Waste Land Board.

W. H. CUTTEN,
Chief Commissioner.

Waste Land Board Office,
Dunedin, 13th Dec., 1862.

DUNEDIN, OTAGO, NEW ZEALAND.—TO ARCHITECTS.—Competitive Designs are required by the Provincial Government of Otago, for a Gaol, an Hospital, and a Lunatic Asylum.

Drawings, &c., will be received at the Office of the Provincial Secretary, until 4 p.m., the second day of March, 1863.
