N.B.—The Expenditure of the Company for the last six months has been very heavy, owing to the opening out of the Mine Cutting and Formation of Roads for conveying Timber; also, additional Machinery, which will be spared for the future; and last, but not least, the severe drought that unfortunately set in the last six months, which prevented Crushing operations; still, under all those unfavorable circumstances, the yield of the Mine for the last six months shows a nett profit of over 13 per cent. per annum on the Capital expended.
