and preserved as Rules and Regulations under the "Gold Fields Act, 1866," by the 113th section of the said last mentioned Act, until annulled or revoked: And whereas the said Rules and Regulations so made as aforesaid have not been annulled or revoked under the said "Gold Field Act 1866," but are still in force on the Otago Gold Fields: And whereas it is expedient to revoke the said Rules and Regulations, so made as aforesaid, and to make other Regulations in lieu thereof:

Now, therefore, His Honor James Macandrew, Superintendent of the Province of Otago, by and with the advice and consent of the Executive Council of the said Province, and by virtue and in exercise of the powers delegated to the Executive Government of the said Province of Otago in this behalf, doth hereby order that all rules and regulations whatsoever, made under the provisions of the said 14th Section of the said "Gold Fields Act 1862," and now in force on the Otago Gold Field, under the provisions of the 113th Section of the "Gold Fields Act 1866," shall, from and after the first day of May, one thousand eight hundred and sixty-eight, be annulled and revoked, and doth hereby make the Regulations following in lieu thereof.

Upon receiving sufficient proof that any portion of a district has been fairly tested, and is either wholly or for the greater part of an inferior character as regards the value of its gold deposits, the Warden shall give public notification that it may be occupied by holders of miners' rights, in claims of the undermentioned size, viz. :—

One (1) acre for each holder of a miner's right, provided that no block claim shall comprise more than six (6) acres altogether.

If no valid objection be offered, the Warden shall, upon hearing the application, issue a Certificate of Registration for an "Extended Claim," specifying therein the area granted, and the exact position of the same.

### 5. Forfeiture.

If at any time the requisite number of holders of Miners' Rights shall not be employed or occupied upon any such "Extended Claim," the Warden may, upon proof thereof being produced before him, in the presence of all parties interested, cancel the Certificate of Registration, either in the whole or in part, as may be equitable: Provided always that a monetary penalty may be imposed in lieu of forfeiture, as set forth in section 115 of the "Gold Fields Act 1866."

In case any person shall desire to take up a claim requiring the assistance of capital to develop the same, he shall be entitled to occupy and hold an additional area for the term hereinafter specified on behalf of any person willing to advance the required capital. Provided that in such case it shall be necessary to give notice to the Warden specifying the time for which he shall require to hold such area, and a copy of such notice shall be posted on the ground for seven days prior to the granting of the same, and the Warden shall hear and deal with any objection to the granting of such area.

### 2. Agreement to be signed.

Before the Warden shall receive any notice under section 1, an agreement shall be drawn up and signed by each shareholder, specifying the share and interest of each individual of the party, and a copy of such agreement shall be registered in the office of the Warden for the information of the public.

3. *Protection during preliminary operations.*

Subject to the provisions of sections 1 and 2, holders of miners' rights, whilst engaged in opening up a claim, or in preliminary operations in connection therewith, shall not be required to place more than one-half the full number of men otherwise required by these Regulations on such claim.

4. *Full number—when to be employed.*

Upon the expiration of the time specified for holding any claim under the foregoing sections the full number of men required by the Regulations shall be put on to work in such claim, but the Warden may upon application to him made in the same way as the original application and upon sufficient cause shown, extend the time originally granted.

X.—WATER RIGHTS AND RACES.

1. *Races to be registered.*

Every race hereafter to be constructed or which shall have been constructed prior to the proclamation of these rules and regulations must be registered with the Warden, as provided by sub-section 1, section XXI of the Goldfields Act 1866, that is to say,—

And person intending to divert and use water for mining purposes by means of any water race to be constructed upon Crown Lands, under authority of these Regulations, shall give notice thereof in writing to the Warden of the Goldfields district in which such water race is intended to be constructed, and to any person whose interests may be affected by the diversion of such water, as well as to the owner or occupier of any land through which it is proposed to carry such water race, and such notice shall be in the form set forth in Schedule C of the said Act; and copies of such notice shall be posted and maintained for fourteen clear days at the source whence it is proposed to obtain water, and at the proposed termination of such water race; and the intended course thereof shall be indicated by pegs not less than two inches in diameter or by large stones marked / \ and placed not more than two hundred yards apart, and such notices shall state the mean breadth and depth of the proposed water race, and the quantity of water it is capable of carrying, and shall also state the time required for the construction and completion of such race. And if no valid objection be entered against the construction of such water race within fourteen clear days from the delivery of such notice, a license in the form of Schedule D of the said Act may be granted by the Warden to the applicant, subject to the provisions and conditions herein contained.

2. *Races to be commenced within one month.*

The cutting and formation of water races must be commenced within one calendar month from the issue of the license authorising the same, and the holders of such license shall continue cutting and forming the same until the work is complete.

3. *Superiority of right.*

Superiority of right to a supply of water shall be determined by priority of occupation, the earlier occupant having the superior right; in all cases when the occupier claims under a certificate or other authority, in writing, granted by a Warden, or Commissioner, occupation shall be taken to have commenced at the date of such certificate or authority.

4. *Superiority of right forfeited by disuse.*

If any race shall be entirely unused for a full period of thirty (30) days at a time when water is available, occupation of the right shall be deemed to have recommenced at the last re-occupation thereof.

5. *Heads of races.*

Every race shall have a point specified at which it shall be taken from the creek or river. In races already

cut this shall be taken to be the point from which the race now heads. No person shall shift a water-right from one race to another, to the prejudice of any existing right.

6. *Insufficient supply of water.*

If the water flowing in any creek or river is insufficient to supply all the races connected therewith, the owner of any right shall, on receipt of a written notice from the owner of a superior right, stating that the supply of such superior right is less than he is entitled to, immediately cease to use the water, or such portion thereof as may be necessary to make up the supply of the superior right.

7. *Water gauge.*

In the construction and for the purposes of these regulations, a head of water shall be held and deemed to be 40 superficial inches of water, to be gauged by a box 12 feet long, 10 inches deep, and 20 inches wide, all measured in the clear. The box shall be covered throughout. The upper or entrance end of such box may be left entirely open; but the lower end or end of exit, shall be fitted with a bar 2 inches high, affixed to the floor of the box, with a pressure or head-board 6 inches deep affixed to the top of the box, leaving an aperture of 2 inches in depth, and of the full width of the box.

(A) If more than one-slucice head of water requires to be gauged, the gauge-box should be enlarged horizontally, to ensure accurate measurement, but when this cannot be done, owing to natural obstacles or other sufficient reasons, the gauge-box may be enlarged perpendicularly, in which case the dimensions of the box must be as follows:—

Number of Slucice Heads.	Perpendicular height of Slucice-box.	Depth of Pressure Board	Width of Slucice-box.	Height of Aperture.	Quantity.
	inches.	inches.	inches.	inches.	inches.
1	10	6	20	2	40
2	11	5	20	4	80
3	12	4	20	6	120
4	13	3	20	8	160
5	14	2	20	10	200
6	15	1	20	12	240
7	16	0	20	14	280

and so on in proportion to any greater number of slucice heads.

(B) The gauge-box shall at all times be placed on a level. When water is taken from one source only, the supply shall be gauged at the head of the race or the source of supply. But if the race is fed or supplied in part by any side-stream, or streams, the gauge-box shall be placed immediately below the last side-stream.

(C) The velocity of the water above the gauge-box shall, if required, be lessened by the construction of a dam-bank, or by levelling the race for a distance of 30 feet; and such velocity shall not exceed an average of one (1) foot per second in the said 30 feet, to be gauged by a float.

8. *Water not to be wasted.*

Holders of rights shall not allow any water to run to waste, but such water shall be appropriated to the use of the next holder of a right according to the date of their respective registrations.

9. *Sides of races may be protected.*

The Warden shall have power to protect a space not exceeding ten (10) feet on each side of any head-race, either throughout the entire length of such head-race, or over any and such portions thereof as he may deem necessary.

10. *Forfeiture of water-races.*

All rights to any water-race authorised to be constructed under the provisions of this Act, shall become forfeited if entirely unused by the owner thereof for

the space of one calendar month, unless in cases of sickness or unavoidable absence, or in consequence of failure of water; but it shall be lawful for the Warden, upon sufficient cause being shown, to suspend the operations of this section for a further period of two months, and a certificate of such suspension shall be given in writing to the holders of such license.

#### 11. Licenses to be renewed.

Every license for a water-race shall be renewed annually, and if any such license is not so renewed within sixty days after the expiration of twelve months from the date at which it has been or may be granted, it shall be deemed to be forfeited, and the registration thereof shall be cancelled.

#### 12. Repairs of races, bridging, &c.

The holder or occupier of any water-race shall keep the same in repair, and shall make an efficient bridge or crossing where any road which has been in ordinary use prior to the construction of such race, crosses the water-race, upon being required to do so by the Warden.

#### 13. Reservations.

No license shall be granted under the authority of these Regulations for the use or diversion of any water which is or may be required for public purposes, or for the use of the miners generally.

#### 14. Water for general use.

Two sluice heads of water shall, if required, be at all times allowed to flow in the natural course of any stream for general use.

#### 15. Side-streams.

Where a water race crosses any water course, the use of which is required by holders of miners' rights or by the owners or occupiers of any land, such water race shall be carried either over or under such water course, so as not to interfere with the natural flow of water therein.

#### 16. Tail-water may be used.

Water from a tail-race may be used by any person, provided that such does not interfere with the proper discharge of tailings.

#### 17. Causing claims to be flooded.

No person shall back the water of any creek, river, race, or water course upon any claim, or otherwise cause any claim to be flooded either wilfully or by neglect.

#### 18. No person entitled to hold license for more water than the race is capable of carrying.

If the holder of a water-license does not construct a race of sufficient capacity to carry the number of heads registered, such number of heads over and above what the race is actually capable of carrying shall be liable to forfeiture.

#### 19. Main tail-race for mining purposes.

When the majority of persons from whose claims, water or tailings flow to a common outlet, are desirous of constructing a main tail-race, said majority shall make application in writing to the Warden in the form appended hereto, and the said majority shall be empowered to frame conditions, subject to the approval of the Warden, for the construction of such main-race by the joint labor or contributions of all persons interested in the construction of such tail-race as aforesaid, and the occupiers of such tail-race may, from time to time, make or alter rules for the extension or repairs of such tail-race, and all such rules or alterations shall be binding when signed by a majority of the persons using the same.

#### FORM OF APPLICATION.

(District and date.)

To the Warden at

We, the undersigned, being a majority in number of persons from whose claims water or tailings flow to a common outlet, at \_\_\_\_\_ hereby make application for a main tail-race, commencing at \_\_\_\_\_ and terminating at \_\_\_\_\_

And we declare the following particulars to be true in every respect:—

The length of such race is

The average depth is

The average width is

(Signatures, &c.)

N.B.—Objections to the above application must be lodged with the Warden within fourteen (14) days from the date hereof.

#### 20. Construction of tail-races.

Before any person shall construct a tail-race, he shall first proceed by notice in the same manner as is directed in sub-section I. of Regulations; but such notice shall only require to be posted seven (7) clear days, at the expiration whereof the Warden shall grant a certificate for the same, provided there be no valid objection thereto.

#### 21. Use of tail-races for drainage.

Any person wishing to use a tail-race may do so on condition of first paying to the owner thereof a proportionate share of the expense of construction, and such proportionate share of expense, if necessary, shall be decided by arbitration, provided always that the person so using any tail-race shall assist in clearing the same, whenever it shall be necessary to do so.

#### 22. Flood-races may be carried through claims.

Any person or persons shall be entitled to construct a head-race, tail-race, or flood-race, over, under, or through any claim, provided it does not interfere with the proper working of the same, and that compensation shall be allowed for estimated damage, if any, and such compensation shall, if necessary, be decided by arbitration.

#### 23. Tail-race to be protected.

Subject to the provisions of section 9, the holder of any claim requiring or using a tail-race in connection with his claim, either for drainage or for other purposes, shall be protected in the occupancy of such additional area as may be necessary for the preservation thereof in a proper state of efficiency.

#### 24. Ground-sluice for saving gold.

No person shall be allowed to deposit earth, tailings, or other substances, in any ground-sluice, or race for saving gold, nor otherwise interfere therewith, unless by the express permission of the owner thereof.

#### 25. Transfer or assignment.

The transfer or assignment of any race, or of any interest therein, shall not affect any right or privilege attached to such race, provided that any such transfer or assignment shall have been duly registered at the office of the Warden, and a memorandum thereof made upon the back of the original certificate.

#### 26. Working ground occupied for races.

Any person desirous of working the ground on which any race or portion of a race is situated may do so by paying compensation therefor, the amount of such compensation to be determined by the Warden and Assessors, or by first providing an equally good race for the use of the occupier; but it shall be optional with the person working the ground either to construct a new race or to pay the amount of compensation adjudged. And if he elects to construct a new race, the same shall be subject to the approval of his Warden and Assessors in the event of dispute.

### XI.—DAMS, PUDDLING MACHINES, AND SLUDGE CHANNELS.

#### 1. Notice of construction or erection to be given.

Any person intending to form a dam, or to erect a puddling-machine, or to construct a sludge-channel, shall mark out the proposed site of such dam or puddling-machine in the manner prescribed for ordinary claims, and the proposed course of such sludge-channel in the manner prescribed for water-races, and shall give notice thereof in writing to the Warden; and the said notice shall be in the form hereinafter prescribed, and copies thereof shall be posted and maintained by the applicant for fourteen clear days upon the proposed site of such dam, machine, or sludge-channel. And at the

expiration of the said term of fourteen days the Warden shall, if there be no valid objection there-against, issue a certificate of registration.

FORM OF NOTICE. (District and date)

To the Warden at

I hereby give notice that I intend to [*form a Dam, erect a Puddling-machine, or construct a Sludge channel, as the case may be*] at [ \* ] and I estimate [*state the number*] days will be necessary for its construction.

\* *Here describe the locality, and in case of a puddling-machine, state the proposed course of the sludge drains.*

2. *Main sludge-channel to be first constructed.*

No person shall be permitted to erect a puddling machine in any locality, until a main sludge-channel shall have been constructed, and in all cases such main channel must be constructed by and at the expense of the person desirous of erecting such machine.

3. *Expense of construction.*

The expense of the construction of such channel shall be borne by the persons then or afterwards using the same, and the proportion to be borne by each party shall be ascertained by the Warden and Assessors, or at the option of the original owner, by arbitration, and payment of such proportion to the person constructing the same shall be made prior to the granting of any certificate of registration.

4. *Sludge-drains and channels to be kept clear.*

Main Sludge Channels shall be kept clear and in good repair by the joint labor of the machine owners in each locality, and the owner of each machine shall further keep clear and in good order the private sludge drain connected with such machine; and on no pretence whatever shall the sludge of any main channel or private drain be permitted to overflow the banks or edges thereof.

5. *Roads over drains to be bridged.*

When Sludge or Water Drains run across or under any road in general use, a substantial bridge (the culvert of which shall be of sufficient size to carry off the sludge or water) shall be constructed and kept in repair by the owner of the machine whence such sludge or water proceeds.

6. *Abandonment of dams or machines.*

Any dam or machine not commenced within seven (7) days from the date of the grant thereof, or not completed within the time stated in the notice, or any dam or machine unoccupied for one calendar month, during a period when sufficient water has been available, shall be deemed to be abandoned, and shall be open for occupancy by any holder of a miner's right, without the necessity of recourse to judicial proceedings, but subject to the same provisions as abandoned claims: Provided that the Warden shall have power to extend the time for construction if he shall deem it necessary.

7. *Injury to property by dams.*

If any claim shall be flooded, or property injured by the bursting of any dam-bank, the owner of such dam shall be liable for any loss or damage occasioned thereby: Provided that it shall be proved to the satisfaction of the Warden that such breaking away resulted from the faulty construction of such dam.

8. *Sites proving auriferous.*

If it shall be proved that the ground occupied by any dam or machine contains auriferous earth or quartz, the owner of such dam or machine may be compelled to leave such dam or remove such machine: Provided that adequate compensation for such leaving or removal shall first have been estimated by assessors, and paid by the person desirous of working the ground.

9. *Construction of dams.*

In the case of any dam or reservoir hereafter to be constructed, the Warden may, at his own discretion, or shall, at the request of any claimholders, or residents holding claims or residing in the neighborhood of the proposed site of such dam, or on or near to the proposed course of the overflow of water therefrom, cause

a surveyor to prepare a specification, setting forth the proper mode of construction, and the necessary strength and thickness of the embankment of such dam, and the width of the by-wash thereof; and the Warden shall thereupon make such orders therein from time to time as shall be necessary.

10. *Inspection of dams.*

The Warden may at any time direct a surveyor to inspect any dam or reservoir that heretofore has been, or hereafter may be, constructed, and to report upon the strength, security, and fitness thereof, and of any works connected therewith; and such Warden may thereupon make any such order therein as may be necessary.

11. *Superintendent may order inspection.*
