1. The number of cattle placed after the name of each Hundred in the first column of the Statement hereunder written, shall be the quantity of cattle capable of being depastured on the Waste Lands within such Hundred.

2. The number of Cattle specified in the column of the said statement headed "Cattle Allowed to be Depastured," opposite the names of the several persons to whom Licenses have been issued or who are entitled to have Licenses issued to them in each Hundred, shall be the number of Cattle which may be depastured for the year 1870 by the persons respectively whose names are specified in the second column of the said statement, on such persons respectively paying the Assessment mentioned in the said Act.

3. Five sheep may be run instead of every head of great Cattle.

4. Any Licenseholder who, prior to the 1st day of June next, shall not have depastured on the Hundred

the full quantity of the stock he is entitled to depasture, may at any time before the 1st day of June 1870, place such number of stock thereon as (together with the quantity previously depastured by him if any) will make the total quantity depastured by him equal to that in the column of the said statement headed "Cattle Allowed to be Depastured," apportioned to him: Provided that within three days after such additional stock shall have been placed on the Hundred, a return shall be forwarded to the Waste Land Board, shewing the number, description and brands of such additional stock.
