The object for which the Institution has been established is to place within the reach of all classes of the community, without distinction, the advantages of a liberal education. The ordinary course of study embraces all the usual branches of a sound Classical, Mathematical, English, and Commercial Education, together with French, Drawing, and Vocal Music.

### Entrance Examination.

A quarterly examination for boys wishing to enter the School is held in the School Hall at ten o'clock on the first day of each quarter. Applicants for admission must be over nine years of age, and must be able to read an ordinary narrative with fluency, to write from dictation with tolerable correctness, and to work with accuracy questions in the four simple rules of arithmetic. In special cases, entrance examinations will be held at any time during the quarter, on one day's notice in writing being given to the Rector.

Boys or adults who do not wish to attend as regular pupils may join one or more of the classes on paying the usual School Fee. In such cases the entrance examination may be dispensed with at the discretion of the Rector.

### Buildings and Play-ground.

The High School Buildings are situated on Bell Tower Hill, and comprise one large central hall, with visitors' gallery; commodious and comfortable classrooms; and library, museum, and reading room for the use of the pupils. In every case strict attention has been paid to ventilation. A spacious play-ground surrounds the School, and a gymnasium, fives-court, and

covered play-ground for wet weather have been erected within the enclosure. A cricket ground, now in course of formation on the Town Belt, will also be available for the pupils of the High School. It will thus be seen that ample provision is made for recreation and physical training.

### Boarding Establishment.

In the Boarding Establishment, which occupies one of the finest situations in Dunedin, immediately adjoining the Town Belt, the pupils are under the immediate supervision and control of the Rector. The building contains thirty rooms, and the Boarders' quarters are provided with all the appliances necessary to health and comfort.

While the School, as a public institution supported by public money, is wholly unsectarian, due attention is paid to the moral and religious training of the pupils. Boarders will in all cases attend the churches to which they respectively belong.

The following is a list of articles required by each boarder:—

(All articles must be marked.)

6 single sheets	2 caps or hats
4 Crimean shirts	3 pairs boots or shoes
3 cotton day shirts	1 small-tooth comb
3 night shirts	1 pocket comb
12 collars	1 large comb
12 pairs stockings	1 hair brush
2 every day suits, with pieces to mend	1 clothes brush
1 overcoat	1 tooth brush
1 Sunday suit	1 nail brush
8 pocket handkerchiefs	1 sponge and bag
4 neckties	1 pair gaiters

### Provincial Scholarships.

The Board of Education has established a number of Provincial Scholarships in connection with the High School, the examinations for which are held annually in the month of December. Each holder of a Provincial Scholarship, in addition to five years' free education, is entitled to board and residence at the High School Boarding Establishment, or a payment of £30 a-year in lieu thereof. Unsuccessful competitors for Scholarships, who gain more than a certain per centage of marks, are entitled to free education for periods varying from two to five years.

### Richardson Scholarship.

The Honorable Major Richardson has founded a Scholarship of the annual value of about £30 for pupils of the High School proceeding to the University of Otago.

### Medals, &c.

The Dunedin Chamber of Commerce gives annually one gold and two silver medals for arithmetic, commercial geography, and writing. Mr. J. S. Webb, Secretary to the Chamber of Commerce, gives an annual prize of a silver pen for writing. Medals and other special prizes are also given annually by various gentlemen.

The attention of Parents and Guardians is directed to the following Regulations:—

1. The School fee is payable in advance, at the beginning of each quarter. One of the masters will receive the fees on behalf of the Secretary of the Education Board, and issue printed receipts for the same, entitling the holders to be admitted by the Rector as pupils of the School for the current quarter. No boy will be allowed to attend the School who fails to comply with this Regulation.

2. Each pupil on joining the School is furnished with a list of the books which he will require. Slate pencils, ink, pens, and common paper for exercises written in School, are supplied to the pupils free of charge.

3. The absence of any pupil during the week, unless previously explained by letter, is reported every Friday afternoon to his parent or guardian.

4. At the end of each quarter a report upon the conduct and progress of each pupil is forwarded to his parent or guardian.

5. The Vacations are six weeks at Christmas, and two weeks at Midwinter, each quarter consisting of eleven weeks, and every Saturday being a whole holiday.

6. At the end of the fourth or Christmas Quarter in each year, the pupils will be examined, according to their Forms, in the whole of the subjects studied during the year, and prizes will be publicly awarded to the successful competitors.

7. In addition to the Annual Examination there will also be three quarterly Examinations at the end of the first, second, and third quarters of the School year respectively. The first Quarterly Examination will be in English subjects, including History and Geography; the second in Classics and Modern Languages; and the third in Mathematics and Natural Science. In these examinations the pupils will be divided according to age, into the six following classes:—

1. Pupils under 12 years at the time of Examination
2. " " 13 " " "
3. " " 14 " " "
4. " " 15 " " "
5. " " 16 " " "
6. " over 16 " " "

These examinations will be held on the last two days of each Quarter, and will be open to pupils from any of the public or private Schools of Otago, who will compete on precisely the same conditions as pupils of the High School.

8. A printed Certificate, stamped with the School Arms, will be given to the successful competitor in each of the six classes mentioned in the foregoing regulation; and the holder of two such Certificates in any one year will be entitled to receive a medal at the Public Distribution of Prizes in December.

NOTE.—The barometrical readings are corrected for index error, capillary action, and reduced to 32° Fah and sea level. The thermometers are corrected for index errors, ascertained by comparison with a standard from Kew. The temperature of the dew point, the elastic force of vapour, and degrees of humidity, are computed from the simultaneous observations of the wet and dry bulb thermometers. In reading the preceding table, it should be borne in mind that all self-registering instruments are recorded at the morning observation, and therefore the results noted occurred during the preceding 24 hours.
