RETURN OF NUMBER OF SHEEP IN THE PROVINCE:—

Sheep Inspector's Department,
Dunedin, 13th June, 1871.

SIR,—I have the honor to forward, for the information of the Government, Return of Sheep in the Province of Otago for the year ended 30th September, 1870.

The accompanying list shows a total of two millions four hundred and seventy-nine thousand five hundred and twenty-five (2,497,525) sheep above six months old, of which number one million five hundred and eighty-nine thousand and fifteen (1,589,015) are returned as depasturing on Runs, seven hundred and ninety-eight thousand eight hundred and thirteen (798,813) on freehold, seventy-five thousand six hundred and fifty (75,650) on Gold Fields, and sixteen thousand and forty-seven (16,047) on Hundreds.

The number forty-one thousand six hundred and fifty (41,650) appearing in the Return as diseased were confined in a corner of the Waitahuna District, and, with the exception of eleven hundred (1,100) in a paddock at Lovell's Flat on last inspection in May, I found the disease so far reduced that no symptoms of scab could be noticed amongst any of the other flocks; but a few months must elapse before they can be pronounced clean. By careful monthly inspections which I propose making, I am sanguine of being able soon to report that all the sheep in the Province are free from disease.

The Waitahuna District being the only part of the Province where any scab has existed for the last two years, I have tried hard to get it stamped out. Although it has been kept from spreading, I have failed in getting it under until now. This particular part of the country being a commonage, the great difficulty I had to encounter was in separating the flocks of the different owners. On almost every examination of any particular flock, some stray sheep belonging to nearly all the owners in the commonage were sure to be found intermixed, there being no recognised boundaries; and U

found it next to impossible to compel all to clean their sheep without oppressing individuals who were doing everything in their power to get rid of the disease.

To meet such cases as the above it would be necessary for the Inspector to have the power to compel owners of diseased sheep in a commonage to confine them in some safe place until they are free from disease.

I have the honor to be, Sir,

Your most obedient servant,

WM. LOGIE, Chief Inspector.

The Provincial Treasurer, Dunedin.
