VOL. XVI.

DUNEDIN, WEDNESDAY, OCTOBER 16, 1872.

No. 816.

PUBLIC NOTIFICATION.

IN conformity to the 29th Section of the "Gold Fields Act 1866," and to the Regulations made under that Act and the Gold Fields Acts Amendment Acts of 1867, 1868, and 1869, for the granting of leases for gold mining purposes within the Province of Otago, it is hereby notified that it is intended to grant a lease for gold mining purposes of Crown Lands to the applicant specified in the annexed Schedule, unless there shall be valid objections against granting such lease.

Objections to the granting of such lease, stating the grounds of objection, must be made in writing, and lodged with the Warden, at Naseby, on or before the 2nd day of November, 1872.

Copy of the application made, and plans annexed, may be seen at the Warden's Office at Naseby.

Given under my hand, at Dunedin, this 15th day of October, one thousand eight hundred and seventy-two.

GEORGE TURNBULL,
Deputy-Superintendent.

SCHEDULE.

Charles Francombe Roberts, for the Energetic Quartz Mining Company, for 16 acres of land, more or less, as the same may be found after survey to be contained within the pegs and trenches of the applicant, situated on the Great Eastern Reef, Roughridge.

PUBLIC NOTICE,

Under Section 1, of Regulation IV.

WHEREAS I have received sufficient proof that those portions of the Otago Gold Field, described

in the Schedule hereto, are for the whole or greater part of an inferior character as regards the value of its gold deposits: Now, therefore, I hereby give notice that the same may be occupied by holders of Miners' Rights in claims of the undermentioned size, viz:—

One (1) acre for each holder of a Miner's Right, provided that no block claim shall comprise more than six (6) acres.

Given under my hand at Cromwell, this 1st day of October, 1872.

E. H. CAREW, Warden.

SCHEDULE.

All that portion of the Otago Gold Field, situate at Cromwell Flat, $\frac{1}{4}$ of a mile north of the Cromwell Bridge: bounded on the north by Crown lands; on the south by Crown lands; on the east by the Clutha River; and on the west by Crown lands; comprising 2 acres.

Also, all that portion of the Otago Gold Field situate on the South Branch of Luggate Creek, adjoining the extended claim of Reid and Nippen, and being on the Western side line thereof; comprising 2 acres.

Also, all that portion of the Otago Gold Field situate at Bailey's gully, and adjoining Bailey's old claim on the west side; and bounded on the north, east, and south sides by Crown lands; comprising 5 acres.

Also, all that portion of the Otago Gold Field situate at Nevis Gorge, three miles above the Nevis township: bounded on the north by the extended claim of Sang Wal and party; south by Crown lands; east by Crown lands; west by Crown lands; comprising 5 acres.

And also, all that portion of the Otago Gold Fields comprised within the following boundaries: commencing on the east side of the Kawarau River at Stuart's punt; thence by the said river to the Kirtleburn;

thence by the Kirtleburn to its source on the Mount Pisa Range; thence by the said Range to a point due north of the starting point; and thence to the starting point.

HIS HONOR the Deputy-Superintendent directs it to be notified that he has appointed
Mr HECTOR McNEILL CAMPBELL,

A Justice of the Peace in and for the Colony of New Zealand.

Colonial Secretary's Office,
Wellington, 20th September, 1872.

THE following letter from the Agent-General relative to the representation of the Colony of New Zealand at the International Exhibition, which is to be held in Vienna in 1873, is published for general information.

The Government recognising that this Exhibition will afford an excellent opportunity for disseminating accurate information respecting the resources of the Colony, and the advantages it offers as a field for immigration, desire to afford every facility for the collection and transmission of specimens of such articles as are available for export and for the employment of a large population.

As articles for exhibition should be shipped not later than 15th January next, persons wishing to exhibit are invited to communicate with the Under-Secretary without delay.

All expense of transmission and exhibition of approved articles will be defrayed by Government; but, as experience has proved that in exhibitions of of this kind the best effect is produced by a few well-displayed objects of considerable size, and as the space allotted to the Colony in the Exhibition Building will be limited, a careful selection will have to be made, so that the representation may be complete.

The Collectors of Customs at the various ports of the Colony have been instructed to receive exhibits, and to forward them to the port from which they will be shipped to the Agent-General, who will be instructed to undertake their proper arrangement in the Exhibition.

As it is understood that a Competitive Exhibition of Staple Articles of Produce will be held in Christchurch, opening on the 15th December, advantage will be taken of it to select the best exhibits of the following articles for transmission to Vienna, so that persons desirous of having such articles forwarded should in the first instance send them to the Christchurch show:—

Wool and woollen goods
Phormium fibre and cordage
Paper pulp
Grain, whole and ground
Grass seed
Malt
Hops
Preserved fruits and jam
Preserved meat and fish
Salt beef, ham and bacon
Butter and cheese
Tallow and soap
Hides, leather and glue
Tobacco.

The articles will be arranged for exhibition under the following classes:—

- I. Minerals, such as—
Metals and metallic ores
Coals, rock oil, &c.
- II. Raw Produce, such as—
Grain, grass seed, and hops
Wool, hides
Phormium fibre, timbers
Gum, whale oil, and bone
Shells for inlaying, &c.
- III. Manufactures—
Mats and cordage, doors and sashes
Malt, flour and meal
Preserved meats, fish and fruits
Salt beef and pork
Soap, wines and spirits
Leather, glue and tallow
Tobacco and cigars, &c.
- IV. Maps, plans, photographs
Ethnological and natural history collections.

Wool intended for exhibition should be if possible in

whole fleeces, and the following information supplied :

By whom shown—as owner or breeder
 Breed of animal
 Age
 Sex
 Where bred
 By whom
 If imported—Date of importation
 Whence from
 Age when imported
 Date of this shearing
 Date of previous shearing
 When washed, and how, previous to this shearing
 If ever diseased
 When dipped, and the materials used for dipping
 Weight of fleece
 Length of staple
 If stapled—varieties of wool into which it is
 classed, with their respective weights
 Price—average realised for previous clips of same
 flock.
 Where sold and how.

Instructions will be issued at an early date relative to the form in which other articles are to be sent in for exhibition.

HENRY SEWELL.

7, Westminster Chambers, Victoria street,
 Westminster, S.W., 27th June, 1872.

SIR,—I have the honor to bring under the notice of the Government the subject of the approaching International Exhibition at Vienna, which promises to be on a very magnificent scale.

During my recent visit to the Continent, the vital importance of our colony being properly represented on this occasion was urged upon my attention at Ham-burgh, at Berlin, at Frankfort, and other commercial centres.

The value to New Zealand of such an advertisement cannot, I think, be overrated.

The Colony has never yet had an opportunity of adequately exhibiting its natural and industrial resources ; and I would therefore press upon the Govern-ment the importance of seizing the present one, the more so as there seems now no hope of our getting any space allotted us in the Exhibition now taking place here.

As, however, the Vienna Exhibition opens in June, 1873, there is no time to be lost ; and I would suggest that immediate steps be taken in the Colony to insure the success of the undertaking.

It is very desirable that the pastoral and agricultural capabilities of the Colony should be exemplified by a good series of wools, tins of preserved meats, and everything in the way of pulse and grain, wheat, barley, oats, &c.

The natural productions of the country should be also fully represented, especially the *Phormium* and other indigenous fibres, together with everything calculated to show their adaptability for rope, cordage, textile fabrics, and paper.

Exhibits of every kind illustrative of the industrial pursuits of the Colony, such as hides, tallow, cheese, butter, woollen manufactures, &c., would all be interesting and instructive from a colonial point of view.

It will be desirable also to exhibit a carefully arranged collection of minerals, rocks and soils, in illustration of the immense physical resources of the country that still await development.

Specimens of coal from various parts of the Colony with full information as to the extent and position of the fields, and samples (both rough and polished) of the various kinds of useful and ornamental native woods, would be sure to attract much attention on the Continent ; and altogether, an exhibition of the kind I have indicated would be calculated to bring the Colony into favorable notice, and to give a fresh impetus to our trade and commerce.

As the Government will be able to command the valuable advice and assistance of such men as Dr. Hector and Dr. Haast in the Colony, I feel that it is unnecessary for me to do more at present than to suggest in this general way what is necessary to be done.

I have, &c.

I. E. FEATHERSTON,
 Agent-General.

 Colonial Secretary.
