14. Articles of great size or weight, the placing of which will require considerable labour, must be sent before Saturday the 1st of March, 1862; and manufacturers wishing to exhibit machinery or other objects that will require foundations or special constructions, must make a declaration to that effect on their demands for space.

29. Packing cases must be removed at the cost of the exhibitors or their agents, as soon as the goods are examined and deposited in charge of the Commissioners; if not removed within three days of notice being given, they will be disposed of, and the proceeds (if any) applied to the funds of the Exhibition.... (30—34.)

35. No counters or fittings will be provided by Her Majesty's Commissioners. Exhibitors will be permitted, subject only to the necessary general regulations, to erect, according to their own taste, all the counters, stands, glass, frames, brackets, awnings, hangings, or similar contrivances which they may consider best calculated for the display of their goods.

36. Exhibitors, or their representatives, should provide whatever light temporary covering may be requisite, (such as sheets of oiled calico,) to protect their goods from dust; and in the case of machinery and polished goods, should make the requisite arrangements for keeping the articles free from rust during the time of the Exhibition. (37—42.)

Every precaution will be taken to prevent fire, theft, or other losses, and Her Majesty's Commissioners will give all the aid in their power for the legal prosecution of any persons guilty of robbery or wilful injury in the Exhibition, but they will not be responsible for losses or damage of any kind which may be occasioned by fire or theft, or in any other manner.

(72—99.) 100. Foreign and Colonial exhibitors should apply to the Commission or other Central Authority appointed by the Foreign or Colonial Government, as soon as notice has been given of its appointment.

101. Her Majesty's Commissioners will consider that to be the Central Authority in each case which is stated to be so by the Government of its country, and will only communicate with Exhibitors through such central body.

102. No articles of Foreign manufacture, to whomsoever they may belong, or wheresoever they may be, can be admitted for exhibition *except with the sanction of the Central Authority of the country of which they are the produce.* Her Majesty's Commissioners will communicate to such Central Authority the amount of space which can be allowed to the productions of the country for which it acts, and will also state the further conditions and limitations which may from time to time be decided on with respect to the admission of articles. All articles forwarded by such Central Authority will be admitted, provided they do not require a greater aggregate amount of space than that assigned to the country from which they come, and provided also that they do not violate the general conditions and limitations. It will rest with the Central Authority in each country to decide upon the merits of the several articles presented for exhibition, and to take care that those which are sent are such as fairly represent the industry of their fellow countrymen.

103. Separate space will be allotted to each Foreign country, within which the Commissioners for that country will be at liberty to arrange the productions entrusted to them in such manner as they think best, subject to the condition that all Machinery shall be exhibited in the portion of the building specially devoted to that purpose, and all Pictures in the Fine Art Galleries, and to the observance of any general rules that may be laid down by Her Majesty's Commissioners for public convenience.

104. By arrangements made with Her Majesty's Government, all Foreign or Colonial goods intended for exhibition, sent and addressed in accordance with Regulations hereafter to be issued, will be admitted into the country, and allowed to be transmitted to the Exhibition Building, without being previously opened, and without payment of

any duty. But all goods which shall not be re-exported at the termination of the Exhibition will be charged with the proper duties, under the ordinary Customs' Regulations. (105—108.)\*

109. It is not the intention of Her Majesty's Commissioners to take any steps in reference to the protection of Inventions or Designs, by Patent or Registration, the law on these points having been materially simplified since 1851.

#### DECISIONS SPECIALLY APPLICABLE TO

##### SECTION IV.—MODERN FINE ARTS.

Class 37. Architecture.

" 38. Paintings in Oil and Water Colours and Drawings.

" 39. Sculpture, Models, Die-sinking and Intaglios.

" 40. Engravings and Etchings

110. The object of the Exhibition being to illustrate the progress and present condition of *Modern Art*, each country will decide the period of Art which in its own case will best attain that end.

111. The Exhibition of British Art in this Section will include the works of artists alive on or subsequent to the 1st of May, 1793.

112. It is not proposed to award Prizes in this Section.

113. Prizes will not be allowed to be affixed to any Work of Art exhibited in this Section.

114. One half of the space to be allotted to Section IV., will be given to Foreign countries, and one half will be reserved for the works of British and Colonial Artists.

115. The subdivision of the space allotted to Foreign Countries will be made, after consideration of the demands received from the Commission, or other Central Authority, of each Foreign country. It is, therefore, important that these demands should be transmitted to Her Majesty's Commissioners at the earliest possible date.

116. The arrangement of the Works of Art within the space allotted to each Foreign country will be entirely under the control of the accredited representatives of that country, subject only to the necessary general regulations.

117. For the purposes of the catalogue, it will be necessary that the Central Authority of each Foreign country should furnish Her Majesty's Commissioners, on or before the 1st of January 1862, with a description of the several Works of Art which will be sent for exhibition, specifying in each case the name of the artist, the title of the work, and (when possible) the date of its production.

118. The space at the disposal of Her Majesty's Commissioners for the display of British Art being limited, and it being at the same time desirable to bring together as careful and perfect an illustration as possible, a selection of the works to be exhibited will be indispensable.

119. The selection of Exhibitors, the space and number of works to be allowed to each, and the arrangement of them, will be entrusted to committees to be nominated by Her Majesty's Commissioners.

120. In the case of living artists, Her Majesty's Commissioners would desire to consult the wishes of the artists themselves as to the particular works by which they would prefer to be represented. The selection of works so made by the artists will not necessarily be binding upon Her Majesty's Commissioners; but in no case will any work by a living artist be exhibited against his wish, if expressed in writing, and delivered to the Commissioners on or before the 31st of March 1862.

121. Her Majesty's Commissioners will avail themselves of the following eight Art Institutions of this country in communicating with artists who are members of those Institutions, viz. :—

The Royal Academy  
 The Royal Scottish Academy  
 The Royal Hibernian Academy  
 The Society of Painters in Water Colours  
 The Society of British Artists  
 The New Society of Painters in Water Colours  
 The Institute of British Artists  
 The Institute of British Architects.

122. Intending Exhibitors in the British Division of Section IV., who are not members of any of the preceding Institutions, may at once receive forms of demand for space,

by applying to the Secretary to Her Majesty's Commissioners. These forms must be filled up and returned before the 1st of June 1861.

By order,  
 F. R. SANDFORD,  
 Secretary
