A. Mr. Charles Benfield's flock is believed to be clean, but sufficient time has not elapsed since the last dipping to admit of an Inspection.

B. Mr. Adam Keir's flock, which was reported scabby in consequence of a mixture with diseased sheep, has shown no actual scab, but I find it necessary to withhold his Certificate until the flock of Mr. Chas. Benfield has been pronounced clean, as they are in the habit of mixing owing to the insecurity of their dividing fence.

Mr. William Logie's flock has been three times dipped, and a certificate given for a separate portion. The balance might be clean if mixtures with the flock of Stevens and Fraser could be prevented.

## SHEEP INSPECTOR'S REPORT—Continued.

I regret to say that the flocks of Messrs. Stevens and Fraser and Mr. Bewley are in a worse state of scab than they were this time last year, notwithstanding that each of them has been fined five times under the 16th clause of the Act for failing to clean.

Mr. Bewley has now got the whole of his property fenced in, which will in a great measure prevent the intermixing of their flocks, and by clean mustering and careful dipping they ought to be able to eradicate the disease from their flocks within the next six months.

ROBERT K. SIMPSON,  
Acting Inspector of Sheep,  
Wanganui and West Coast Districts.

October 8th, 1868.
